You are cordially invited to participate in a special religious studies seminar offered by the Ecumenical Institute: Lusaka. The seminar, entitled "The 20th Century Theological Revolution", will be offered in Kitwe at the Mindolo Ecumenical Foundation. The seminar is an exciting and practical pulling together of the major theological insights of our time in the context of the renewal of the local church. Following is the design of the seminar:

The Current Times and The Question of GOD	The Authentic Life and The CHRIST Event	The Style of Freedom and The HOLY SPIRIT	FILM and Discussion	The Revolutionary Task and The Role of the CHURCH
Session 1	Session 2	Session 3	Session 4	Session 5

The seminar uses a variety of new educational methods which allows for depth reflection on the meaning of being a Christian in today's world.

1. CORPORATE CONVERSATIONS over the meals deal with important issues facing 20th century churchmen and women, such as, the renewal of the church, how to be a Christian neighbour and the question of a Christian vocation.

2. IMAGINAL LECTURES create a common context in which the group can wrestle with the crucial questions and issues of each session of the seminar.

3. GROUP SEMINARS allow the participants to have a lively, in-depth discussion with some of the key theological breakthroughs of our century. These seminars are really the heart of the course for here people have a chance to share ideas and struggle together with the deep issues of their own lives as 20th century Christians.

4. COMMON WORSHIP brings people of diverse denominational backgrounds together in an experience of ecumenical worship which creates a new understanding of and appreciation for one's own form of worship.

5. CONTEMPORARY ARTFORMS create an exciting dialogue between the thinking and stance of the church and some of the edge cultural expressions in today's world.

We would be most honoured by your presence at this significant and important event.
