

## THE OTHER WORLD

notes for lectures JWM

Area C

Trying to recover word love Agape.

Mystics talk about each of us becoming. Christ. This experience most important experience of his lifetime. Practical manifestation of trusting God.

This lecture deals with the other side of Freedom Responsibility to the Mystery this has to deal strongly with accountability. Like the question they ask you when you get to heaven. How are things? You are dealing with the awareness that seems to be objective. You are unavoidably responsible for the world, inescapably responsible. Have to do interior of indicative of responsibility. What through the years has been called Christian perfection. The lion and the lamb lie down together. The awareness that you hate no one. You love everyone If you have hatred, grudge anger, you're not in another world. A shocking thing to have no enemies. To love your enemies..to honor one another. No sentiment...19th Cent. Xinity fell into sentiment and we must avoid that. This is born of the awe you avoid heretical humanness. You are aware in this awareness that this doesn't come from you. Spell out the practical manifestations of this Cut over against flower children. Nothing to do with telling someone to go to hell. That belongs in another category.

### Custodian of Globe

space care of whole wide world. The awareness of this care. Caring for world in abstraction means not only absolution upon whole wide world but gives peace, justice and mercy. The words break down then. There is no such thing as peace justice and mercy in delimited community. -Cannot have justice in a circumscribed world. Be long as one baby suffer there is no justice in the world.

We still must create relative justice. The state of being is the awareness of responsibility for the whole wide world. This makes you an odd one.

There's a wildness in every man of spirit. He's outside the camp. Draw into this lecture the nuns and priests not wearing their habits. Those habits have dramatized that they were the unusuals in history.

Time creators of history.....Sartre you're responsible for who you are. You're responsible as male=female, sixty pretty slim strong all the way back to adam. You are the savior of mankind. you have to pronounce with your life absolution on all of history. You're talking about the war Carthage lost to Rome. God has violated his divinity by creating the future. When you get to heaven no crap about how you tried or you had a delicate psyche. Here's where terror is and yet a fascination you can't describe.

THE OTHER WORLD

JWM notes from Spring Quarter

Area C

Theology of Agape

EAstern Church God creator

West Church God redeemer

Protestant reformation could only come out of Rome

Practical Theology Love of Given World desire and embrace of Awe

Love of God alone produces Agape

There are lines of demarcation but this transcends

1st Lec. has to deal with otherside of freedom has to deal with accountability when get to heaven what are they going to ask not were kind to children but how are things going? did you take care of things?

flip side of freedom is there Perfect Love image lion and lamb together indicative that is awareness. don't hate anyone if don't love everyone don't live in the other world shocking thing love enemies work out concept of honor we've worked out all barriers are broken down born only of the Awe When awareness there aware awareness doesnot come from you.

Care of the whole world NSV Home gave permission for econ tyranny charity begins at home etc. that among other things destroys our children.

Care of the whole world values peace justice mercy is no such thing as mercy in a delimited universe as long as one baby suffers there is not justice in the world State of being awareness of responsibility for whole world makes you odd because every nation has to brainwash its people that their nation comes first. When we don't handle this properly become weird ones reason orders need to be careful in letting habits go Ring Grown on me not life other peopl

4th deal with time states of being: the man who plays God--James Arless the frightening state of being. When awareness begins to settle in you begin to fee terrifying reffellion that you are God. Fred Gaely said a good teacher has to go into classroom and play God knowing not God--go in assuming responsibility for all of creation and own creation fat..thin. *Sartre - History Conspired - Resp. for who you are* shove back to adam. Savior of mankind you have to pronounce absolution on every bit of creation with your life Frightening youre responsible for future. When get to heaven what was the future you created not minutes or hours 30,000 years wouldn't press for more if weak pshche what did you do? none of this took care of my 8 sons.. was a good citizen

Angst-objectless

creator of history (Barth angry with God)

Love (honor) when see someone coming down the street and just know they are there just know there

Visit

in responsibility fathers have used categories of Love.. the affront of word comes love your enemy(ies) scripture eye for eye your father sends rain to just and unfjust have always read as moral as soon as move to other world indicative (this is human activity just going on touch cord everyone knows about immediate participation)

Beginning to feel reality is these states of being. In our day fairly easy to see it's the relationship not thereness but posture toward thereness that is the reality.

Josea..talking over Israel this state of being. The world is only dealing with these states of being what gives council of idols and perversions. The relationship is the state of being.

Prop. bottom out of decision man gets to be 60 still temper tantrums doesn't know what to do about it. states of being. this puts substance in what decision is decision underneath decision. All states of being included in attributes of God.attributes of way 1st. attribute is that he is to describe states

Campbell--working with Mythology way Freud worked with freudianism deals with it inside rather than ontic ly which pulls into objectivity when deal with mythology are dealing with relationship and mythology throws into objective

Consciousness responsible for the world Mountain of Burden of Responsibility

Never really delight in the other world

ones before us John of Cross knew because of trusting own intuitions delight only occurable with other world starts to bleed. but delight in this world take Christ in room crummy character could nail down when delight comes it is with Marge. Not realm of cause and effect.

Eternal Return forever wansering have to describe this state of the return and the state Father Dameon went to Molkae to found leaper colony return to carry world on shoulders until he died. Gautama built onthis (ie. Buddhism is built on this.) The only ~~curse~~ cure death urge. Paul I'd like to go to Jesus-but you need me'll stay stated as indicative every human being carries weight of world on shoulders Desire way delight in world is because God delights

Relation Sacred and Profane when say Other World in this not talking about amalgamation protect human...as well as the divine.

It's all quite bewildering. Everyone wants you to do this or that relative to some preconceived idea of the thing to do. And you care about all, you think. It's upsetting; for "all" means also the "particulars"; yet how do you say this to others? That you care.
