

Clair Woodbury -- Global Council -- Report from Areas Winnepeg and Montreal.

Area Winnepeg and Area Montreal stand accountable for their task and would

like to report under the image of demonstrating the task. ~~It~~ This ~~is~~ has been the

~~year~~ year when the parachute has been thrown up; when the art work has been re-

built; when the stage has been shoved into the center; and Satan has pushed

that fellow up. This is the kind of resilience that has to go on behind

solid every/global movement. This is the great task summed up as area Winnepeg

and area Montreal see themselves on the long thin line. 25million people in

if those two areas and/you could imagine one long table with people sitting on

both sides of it two feet apart. That table stretches across 5 thousand miles,

from sea to sea. And that's the kind of image that sees Anchorage with a

course, a/PLC, this last year with two Eskimos, one laymen from Nome, one Lutheran

from Wales, which is only 150 miles from Russia. Stretching across the

Yellowknife region -- there's only one realization that goes on between

colleagues in Yellowknife Region and Anchorage Region and is that of two

Woodbury page 2

girls in the far Northk have had~~xxxxxxx~~ are "Which region is respon-
sible for the North Pole?" I think that sometimes we all -----?

~~xxx~~

attention
come forth, but it's not too serious. The ~~question~~ of responsibilities.

Vancouver Region. Our grads from Vancouver Region coming ~~xxx~~ out of courses

in the surrounding regions. And Edmonton Region where we now have colleagues

probably who have
who are ~~xxxxxxx~~ working toward PLC next Fall, ~~xxxxxx~~ specific plans

in their minds. And the Saskatoon Region where things are happening.

And I'm sorry that nothing ever happened in Saskatchewan. It's just been

through
shown ~~xx~~ what is the story that calls the story that brings possibility longer.

For Saskatchewan Region is coming alive as the region has seen things do happen .

And where the Spirit Movement doesn't come alive . And moving South to the

rich
Winnipeg Region , which has been a deep /relationship development with the

largest Roman Catholic parish in Winnipeg. I find that buying is breathing a

new excitement for both Area Winnipeg and Area Montreal 1 are areas with many

Woodbury page 3

great churches, and two great languages, and that kind of unity and
diversity ~~in~~ in the Spirit Movement is bringing to the Great Turn in the
great time. For Winnepeg 4 courses the last week of Winter Quarter/ Four ^{and on one weekend.}
people coming down to Chicago to the LENS pedagogy not only says that
almost -----? sum of education. Anybody wanted to come there would be
some administrative remedy and this place would swarm and 4 people coming
down from Area Winnepeg for that.
-----? Metro, ecclesiola this past year -- all great signs . And then
Toronto
across area Montreal -- ~~XXXXXXXXXX~~ Region, Hamilton Region, Charlton Region,
Montreal Region all coming together to pull off their great LENS course.
Which must excited television . and dedicated colleagues across that whole
region. Hamilton Region, densly populated , called the golden horseshoe.
And with that Toronto ~~region~~ pulling off a great LENS course, 18 coming down
to Montreal for that. And guardians. We've ^{two} got/guardians now. One in

Toronto Region, one in Montreal Region. And in-king of the establishment taking a participatory role as a responsible role, both in the Toronto Region and Montreal Region. And then in Quebec, there's -----?? being the language. They couldn't have ~~now~~ started to go around the corner here in t this building. I don't know how many of you have had the experience around

(furnished?)

the corner here and burning's on the other side. But that was an experience ~~that~~ that's something like my Fathers, got your homework polished and ~~extended~~ ~~extended~~ French polished and then they speak in Polish and that's really going towards that line around the room ~~that~~ back to the other one. Working relations ~~extended~~ can be rough. What is actually the authority for the Northern ~~extended~~ areal areas. It's a strange kind. Something like the reading of the reading of the great statutes and ~~a~~ our colleagues are probably going to hurt to acknowledge the Halifax region being a sign plans transpires out there. To sum it up Canada, and ~~that~~ when you say Canada you have to realize

Clair Woodbury - Report from Area Winnepeg and Montreal

two

We have ~~xxxx~~ areas having ~~spee~~ special roles in relationship to the world

because of cocourse and bearings - their taking over various

countries and bearing beneathing them. Countries ~~ef-various----taht--~~

that many other countries have a great deal of difficulty anchoring and

with a real responsibility that comes from that at this particular time,

inthe history of ~~xxxx~~ the spirit movement. ~~xxx~~ within five years, two

colleagues have gone out from Area Winnepeg and Montreal to India and

war

every time that we pray in our ~~xxxx~~ room our priors are reminding

there are many, many more colleagues who are going to ~~xx~~ pick up this

task of global responsibility. For there's always been that ~~xxxxxxx~~

story from the moment Western-churches- Leslie Churchman won that peace

~~xxxx~~ prize for his work in relationship to other countries, world peace~~xx~~ .

The Canadian Army was seeing itself in the role of a peace-keeping nation.

And this is to be ~~xxxxxxx~~ admired in various ~~acitivies~~ activities of the country

right now. That story is there and the ~~xxxx~~ . . .

Woodbury Areas Winnipeg and Montreal

always had that story of being service to the globe and can use that and

build it up. And somehow there, because this is being

and nothing more and nothing less, in that in the ~~the~~ very near future

we will be in ~~the~~ Region Vancouver. Development doing intense penetration,

we're praying that
and ~~we're praying~~ for RSI courses that our colleagues in Seattle have dedicated

themselves to pulling ^{an} off next year. We see/intensified training

in priority; moving in time from Saskatoon to Region Edmonton. That's

's ~~is~~ done
the kind of thing that ~~is~~ to the church, those of us who were there ~~is~~

difficulty, ⁻⁻⁻ and there's that too far further ~~is~~ building with

---? story and prioritizing up behind that solid decision across the continent

And the prior for the Winnipeg region, we desperately need a Fifth City

project in ----? And that ~~is~~ can happen. I can hardly say where it

would take which is my dream, furthering the ~~is~~ Indian situation,

~~The~~ the Indian community, Fifty City Project happening within those

Woodbury Area Winnipeg & Montreal

those communities where there are 200 thousand Indian people in Areas
Winnipeg and Montreal. 50 thousand Eskimos. If something happened, that
would be a continent-wide sign. And that kind of power of the sign
is what we all know, that is required by history in this particular
moment . So that's Winnipeg Region caught in that particular ~~time~~
prayer to see fulfillment. Region ??? Stands ready for that kind
of
reaching recruitment a that's been ~~there~~ there--from--the-- saved from
the
the renaissance of the ~~army~~ army, having been from ~~the~~ and the renaissance
of the , that was made secular by Hamilton. All that buzzing
power and events of life and children, and culture, has been the armed
force for moving the political continuity being picked up. And then
in front, under the eyes of the establishment, you'll notice that the
headquarters of the major denominations ~~are~~ in Canada are located. Prior
to house that kind of
to there ~~they have the~~ local church experient which which lifes up the

Woodbury Areas Winnipeg and Montreal

(minds in other ways?????) which ~~gives~~ gives your troops the heaving

as the writer of
sheen and touch, ~~of xxxxxxxxxxxxxxx~~ ~~xxx~~ St. ~~John~~ John says "In the reality

of the Spirit in these particular days," and the ~~xxx~~ leads ~~xx~~ are similar

-----?

for Religious Houses in Ottawa to build a part of that pattern-~~xxx-ordering-~~

~~patterning-of-prayer-~~ of clerical feathering of prayer. The great economic ,

and cultural centers of Toronto and Montreal, and Vancouver, and Winnipeg .

~~that-the-collegial-center~~ That the great collegial center. We want to bring

comprehensiveness into our economic global and cultural life. And it's

very rare that that remains the same. And there's many ~~other~~ cultures

of the far east, and ~~and~~ it's the wrong look because of the state of

those ~~whenever~~ Montreal and ~~and~~ ??? . We follow through that

(extinction??) of Quebec and then on to ~~ix~~ 500 miles out to

and then to

Woodbury Areas Winnepeg and Montreal

And then when you reach the far corner of Great Britain, you've gone

80 miles ~~xxx~~ straight, and then you go another 580 miles around to ~~xx~~

reach St. John, Saskatchewan, and then come home. And that's the

long? Region, that's a long time, that's a ~~long~~ long fate.

And for the size of the region there's not many people you will have

~~figured~~ ~~xxxxxxx~~ taken for those of your ~~xxxxxxx~~ friends. So our prayers

is look ~~and~~ to the road and offer up, it's 5000 miles, 5000 miles from

one sea of tranquility to another sea of tranquility. A long time

of resurgence, a long range of history that has always ~~xxxxxxx~~ goes from

the far North. It started crumbling cities, struggling to be the

new urgency on the other side. A long straight line in now 90% of the

population of Area Winnepeg and Area Montreal, whether he went within 100

mystical
miles of that straight ~~invisible~~ line of that, of those areas from the

~~xxxxxxx~~ three areas that border us on the on the West. A straight line

Woodbury Areas Winnepeg & Montreal

ready for a illuminous~~s~~ consciousness to flow from one sea
to the other. I Mean how couldd the whole world pick up the kind of
responsibility , the kind you pick up,for India and many other countries

the
abound ~~xxx~~ world, who are asking ~~xxxxxx~~ like do you know consumed the

for this department
. Part of ~~the-responsibility~~ of areas

of responsibility of being the global people, the long thin line where
the mountain of care for the whole world is never, never out of sight.

We offer this reposrt and this rendurition , this is all of our colleagues

in these two great areas ~~xxxxx~~ who rendered to me on ~~xxx~~ behalf of the

apirit movement for the whole world.
