

THE THIRD CAMPAIGN

SOME IMAGINAL IMAGERY

1. THE THIRD WAVE - society is actually acknowledging the post industrial age, i.e. Toffler, Rifkin - in a surprising context of hope.
2. THE THIRD SECTOR of the service sector – society is acknowledging the cruciality of the non public/non private role in building society, i.e. Wall Street Journal article.
3. THE THIRD LIFE of the Religious-Secular – society is acknowledging, neither the evangelical or pagan are capable of building the earth.
4. THE THIRD FORM of the trans-establishment. Society is acknowledging that a new earth is to be built by protest nor protection.
5. THE THIRD TRANSITION - The Order is anticipating the third great shift from our time of Knowing and Doing to the great intensification.
6. THE THIRD MODE – of primal community. The order is aware that the spirit formation of every community is called for.

THE THIRD CAMPAIGN

1. is about the movemental to the masses - the cell, the guild, the order-- not volunteerism.
2. is about the training of the cell, guild, order to impact the masses
3. is about the interchange of the movemental.
4. is about the permeation of society for the sake of the local
5. is about the practicalizing of spirit modes for the sake of the masses.
6. is about the dynamics of glorifical hope.
7. is about intense research.
8. is about formation of this movement, the basis of which is the regular metro circuits

SOME OF THE POSSIBLE PRACTICAL THRUSTS OF THE THIRD CAMPAIGN

1. Training Centrum – could be experimental in Chicago – comprised of 1) Demonstration Training; 2) Awakenment Training; 3) Fulfilment Training; 4) Piorship Training.
2. Permeation Post – for self-support – a global consultants pool with international agencies like IADB, strategy for societal permeation, relations with extended order.
3. Interchange Post – beyond the Global Order Report and communications; this is the edge of our global glue – the glue of cell, guild, order.
4. Speakers Bureau – Popular preaching where each house is a part of a Global Speakers Bureau, i.e., Human Development Declarations.
5. University Engagement Experiment – beyond exposure of students. This could be the place where the "next course" on profound living is built. Vanderbilt University is ready to do chis.
6. Signal communities = Extension.
7. Intense Research = Writing.

*N.B. No.6 & 7 are handwritten additional notes
on my copy of the typescript. - (Jim Bishop)*
