

# IMAGINAL EDUCATION

## CREATING THE FUTURE

## WHY HAVE A PRESCHOOL?

When you work and live in a particular community, you realize that there are a thousand things that need to be done. Why then, out of all the choices, would you choose to do a preschool?

There are many answers to that question. Objectively, studies have shown that in the years from birth to four, patterns are shaped which last the rest of a person's life. For many children, these patterns may be unhelpful. They may learn to eat the wrong foods; they may learn that being dirty is simply a fact of life; they may learn that they are bad or stupid or just generally unacceptable; they may learn that the future is really open only for a very few. These patterns will never change unless other, more positive images replace them. When you look at the larger problems in community and society, among them are apathy and hopelessness. A preschool is an important way of attacking both issues. When parents know their children are learning, when they hear the songs they sing, when they see a fatter, healthier child than ever before, other changes get made. People want to know why, and they have new reasons to get involved, new reasons to change their own ways of caring for their family and their community. So it is that apathy turns to involvement and hopelessness to hope.

A preschool is not babysitting nor is it simply a "pre-public" public school. It is not just teaching children to get along with others. Rather, a preschool is a journey. It allows a child to grow from dependence to independence, from relying only on others' decisions to making his own. And it is a journey for the staff and for the community because they must also change. Responses to children that were simply the "way it's always been done" may no longer be enough, and new responses must be made.

If you are serious about meeting the challenges of poverty, ignorance, a lack of self-confidence, vision, and hope, you must start at the root. You must change yourself as well as the patterns that allow these problems to exist year after year. If you really want to change the future, you must deal with the present. Children are both the now and the future, and the job of educating them—in the deepest sense of that word—must be taken seriously. The journey of life is an adventure which is in every moment. The journey of life is here and now. Let's go!

I. INTRODUCTION

Across the world today, people are asking themselves.... "What does it mean to be educated?" In many countries, people are largely illiterate. Schooling is often either unavailable or only for the privileged few or for such a limited amount of time that it does very little good. In the more highly developed countries, the question seems to be one of quality. Youth graduate from high school not knowing how to read; children are offered many different "programs" which seem to result in little education. And finally, you ask yourself, "What does it mean to be educated?" It isn't simply knowing reading, writing, and arithmetic, but is also knowing how to make decisions given unclear choices, having skills that can be used in home or job, or knowing that your life is not simply for yourself, but that it is many relationships - family, community groups, state and federal political bodies, and so on. Being educated is being prepared to meet life as it comes with all of its joy and demands and decisions.

The question then becomes.... "How do we get educated?" One way of answering that question is to say that there are four steps in the learning process:

1. First, all of us think in images or pictures.
2. These images or pictures control our behavior.
3. These images may be changed when repeatedly hit by new or different images.
4. When our images change, our behavior changes.

An illustration of these steps as they actually play a part in our lives may be as follows: Only a few years ago, we all had certain images of what a woman could do. She could be a teacher, a nurse, a mother, a waitress, a volunteer worker and so on. She was limited by her education, her "station in life", her understanding of her responsibilities, and her own sense of vocation, as well as society's sense of her vocation. Over the past ten or fifteen years, however, our images of the possibilities open to women have changed dramatically. She can be anything from a lawyer or an astronaut to a truck driver or football player. Women now have all the opportunities of the past as well as a million new possibilities for their involvement, and their behavior, outlook and understanding of life has changed. Examples could be given for any number of different aspects of today's world—the effect of machines across the world, the effect of instant knowledge of world events, how the death of a spouse or a parent resulted in a brand new way of life for an individual. In other words, education never stops. It goes on all our lives, and we are constantly becoming new human beings.

As you educate your own children or as you decide to educate in more formal ways such as preschools, public schools, adult and community education---you are attempting to educate everyone to the way life really is. We like to think that childhood is a time of ease, a time without painful decisions or struggles. Yet we all know from our own childhood or from our children that even an infant struggles with being hungry or not having all of mother's attention or being bullied by older children. To hit or not to hit is a decision every child makes---sometimes a hundred times a day! To obey or not, to brush teeth or not, to try a new game or not---all are everyday choices in a child's life. What, then, do we need to give children so that they can meet life's challenges? What questions do they need to learn to ask in order to make wise decisions? Here are four to start with:

- What are my limits in life? (What can I not change and therefore must accept?)
- What are my possibilities in life? (My talents, potential, future?)
- What style do I need to be both as an individual and as part of the world?
- How can I best care for others and for the world in which I live?

If a person asks himself these questions when faced with a decision, whether to study for a test or have children or take a certain job, he or she will make clearer, wiser, and firmer choices. These are the questions which lie behind what we will call imaginal education.

One final thought: In order to answer those questions, each of us needs to look at what things we have to help us. If you ask yourself "What job should I take?" and you take into account not only what you want to do, but also what jobs are available, what training you will need, what the future is, and how that job fits into your aims in life, you will greatly expand the number of choices. If you look only at your desires or the available openings, you limit your choices. The same is true when you ask yourself what you are capable of doing. You have one picture of yourself, your family has another, a total stranger or a different set of circumstances may present an entirely different view. Think of people you've known who have shown great courage they didn't believe they had or talents no one else thought they possessed. Many times in life, you are required to do the "impossible", and strangely enough, you find yourself able to do it simply because it must be done. Perhaps the following picture will be helpful in looking at all the factors in a decision, a rainbow of life:

All of these are aspects of any decision from the simplest to the most complex. It is a tool to help us make the most responsible decisions. While it would be nice if everything were as "right and wrong" as what is "2 plus 2", this is seldom the case, and we need to teach our children how to choose between right and right and wrong and wrong. We need to teach them to view decisions not as fearful moments, but as challenges.

### III. IMAGINAL EDUCATION

With all this in mind, how then do we create a day, a week, a year or thirty years that will really educate people? In imaginal education, there are four major areas of the curriculum. They may be done in an hour, a day or a month, but they need to be done in order to educate the total child. The following is a simple chart which names these areas and gives you an idea of what each area contains:

AREA	OTHER WORDS	CONTENT SUGGESTIONS
BASIC	Objective Intellectual Mental skills	Reading skills, writing skills, math skills, language skills
RELATIONAL	Social Other relationships Reflective	Family, community, nation, world, universe, rules & regulations, other cultures, history, living with others
PSYCHO-LOGICAL	Individual Personal Subjective Interpretive	Physical and emotional needs, self in social relations, love, meaning, individual creativity, talent self-image
IMAGINAL	Decisional Vocational Depth response	Limits, possibilities of self and world, individual life style, heroes, qualities of courage, risk, compassion, care, new images of self & others.

As you can see, there is no aspect of being a human being that cannot be touched using these four areas of concern. You don't want children who are simply smart--you also want children who are confident

and caring.

As stated before, the four areas can be arranged in any time frame. A high school class may spend its hour doing ten minutes on the basic skills for the day, twenty minutes on how to use these skills in daily life, fifteen minutes on individual questions, and fifteen minutes in role playing a life situation and reflecting on it. For purposes of this booklet however, we will emphasize imagined education for preschool age children, 0-6 years of age. You might have two hours, a half day or a full eight hours, but in any situation, your job is to touch all four areas and to create happenings for the children. The question is how to schedule your time to most effectively educate. The following picture is a suggested rhythm for a full-day program:

You can see that the day includes a definite opening and closing, four curriculum periods, supervised play activities, nutrition and general health care (bathrooming, handwashing, naps). Every minute is learning, and songs and rituals are used to begin and end the day, the meals and snacks, as well as to mark shifts---taking a nap, going to the bathroom, etc. The four major curriculum areas aren't simply sitting around a table, but include trips, dancing, art activities, movement and stories. Free time may be organized games, races or dances as well as individual and group free play---indoors, outdoors, running, racing, hokey-pokey, ball games, and so on. Activities are designed to meet the children's physical and mental capabilities. It is designed to be consistent, yet surprising, demanding, yet delightful!

A final consideration is how you create your space---all of it---classroom, hall, kitchen, bathroom, diaper area. Many of the children you teach will come from homes that don't enjoy cleanliness, neatness or privacy. Your school, whether it is a room, a tent, or a concrete slab, needs to be all of those things plus some. Pictures, designs, mobiles, and posters need to give every child new images of the world, his community and himself. You need to have children's work along with teacher-made decor. Arrange for noisy and quiet areas, group and individual space, eating and play sections.

### LIX. TOOLS & ACTIVITY SUGGESTIONS

Very few of us happen to be born with a lot of imagination, and creating activities for children day after day gets harder and harder. Yet all of us can develop our imaginations with a little help from some general methods and suggested activities. We will find out what works and what doesn't by trying a million different things. We will learn that what may not work with one group will be fantastic with another. We will find that one thing kicks off our imaginations to other things. A teacher's life is never dull!

The most basic method in imaginal education is the art form conversation. It may be used with pictures, music, poetry, stories, trips or any other experience; as well as a conversation in a discipline situation. It is simple, common sense reflection. A series of four questions with variations to suit the situation allow a person to express the objective data, his response to it, his interpretation of how it fits into other relationships, and his decision about it now and in the future. The following chart illustrates the question level and sample questions:

LEVEL	SAMPLE QUESTIONS	
	Art Form (Picture, poem, etc.)	Discipline
1. OBJECTIVE	What objects do you see? colors, shapes? What animals did you see at the zoo?	What happened? Who was involved? How did it start?
2. REFLECTIVE	What emotions do/did you feel? Where did you laugh, cry, get mad, get frightened?	Were you angry? How do you feel now? How does the other person feel?
3. INTERPRETIVE	Tell a story about this painting. When have you experienced something like this in your own life?	Did your action really help you or anyone else? Did it solve the problem really?
4. DECISIONAL	Name the painting, trip, story in your own words. How are you different from having experienced it?	What are you going to do next time? What should I do to remind you that this isn't acceptable?

This is a very flexible method and can be used almost anywhere. One important thing to remember is that the fourth level, the DECISIONAL, is very individual. Especially in disciplining a child, you can't

make their decisions, but with children, you need to give choices that are real and that you will stick by. The child may not choose the way you'd like, but needs to be given a choice. The important thing is deciding with a possibility for re-deciding. For example, a little girl decided she wants her mother who is at work. She cries loudly and disturbs the whole class. Teacher takes her to a quiet place, has a conversation and finally says, "Now you have three choices: you can stay here and cry, you can stay here and not cry, or you can come back with the other children and not cry." (Crying in the classroom is not a choice, going with mother is not a choice.) The child may decide to stay and cry. Teacher needs to return periodically and say again what the choices are. Nine times out of ten, on about the third visit, the child will settle down and make a new decision. With the very young child, the teacher may simply rehearse the situation, but you need to keep the choices before a child. Obviously this method takes more time, but we're all aware that only spanking or unrealistic threats seldom work, and if they do, the longer-range results may not be what we want. Don't threaten a child with things you know you won't do (no matter how much you may feel like it!) You aren't going to break his arm, you aren't going to throw a perfectly good toy away. Give him or her real choices and help them understand both the limits and possibilities of the situation.

The following is a list of nine other tools that you will find helpful in thinking of activities:

TOOLS	ACTIVITIES
DRAMA	Role playing by teachers and/or children of action-fairy tales or everyday incidents; puppet shows; movies or plays
INSTRUMENTS	Rhythm bands-pots & pans, wooden sticks, bells, bottles, etc; records-foreign, classical, jazz, rock
ARCHITECTURE	Block-building of cities, walls, houses, bridges, making cars, houses, puppet theaters out of boxes, coat hangers, tin cans, etc. for metal sculpture, trips to view different types of bldgs, what made out of, size, function, etc.
POETRY	Teachers or children make it up; nursery rhymes; classical poetry; psalms, chants, rituals; word games using rhyme, color, feeling words
DANCE	Teach exercises, ballet, children's dances, native folk dances, pantomime, charades, acrots, games
SCULPTURE	Statues in town; clay, flour/water/salt dough, picking up wood, sticks, leaves, flowers and creating pictures; using different kinds of fabric; making pillows, dolls, beanbags.
STORIES	Mythology, fairy tales; children's books; comic books; fables and chalk talks
SONGS	Nursery, folk, counting, foreign
ART	Painting with feet, hands, forks, bolts; looking at great paintings or children's work, cutting/pasting, beans, rocks, paper clips, clothes pins, macaroni, rice; tracing body

#### XV. THE STAFF

Last but certainly not least, we need to discuss the staff. There are certain qualities to look for in individuals---genuine love of children, preferably a little experience, patience, and self-discipline. But these qualities come in very different combinations. Some teachers may be firm disciplinarians, some may have the patience of Job; some may be serious and objective, others may be lively and a little crazy. Children need all those different styles, and you need to ask yourself what kind of teacher you are and how you can work best with other staff.

Becoming a staff that really works together is a journey. People always have their own ideas of how to run things, and it takes time to work out methods of talking issues through and reaching a decision. A couple of things are absolutely essential, however. First, you need regular teachers' meetings that include not only business, but also fun. Those don't have to be every day, but they do need to be consistent. Celebrations outside the school are also important. Take trips together, have a Christmas party, and so on. Secondly, you need "uniforms"---something bright and attractive, chosen by the teachers (and probably made by them!), and worn every day. The uniforms have value not only practically (you don't have to worry all day about dirty little hands and bottoms!), but also a way of bonding the staff together. Every time you look at the other staff members, even if you are mad or irritated with them, you are reminded that they are there for the same purpose as you are---to care for the children, the school, and the community.

Teaching is a fact of life. You teach everyone you come in contact with daily by how you act and what you choose as the important things in life. Teachers who look at teaching as only a job will not do well, nor will they be happy, for as a teacher, you are generally overworked, underpaid, and unappreciated---at least in your mind! Teaching isn't just a job, it is a vocation---a work which calls for more time, more energy and more imagination than money could ever buy. But teachers change lives, even as they themselves change. By changing lives today, you change the future, you offer people new hope and new possibilities for their lives, in short, you change history. What more could you ask?

THE YEAR'S CURRICULUM RATIONALE

QTR. 1	ECONOMIC DEVELOPMENT Self-Sustenance	QTR. 2	SOCIAL DEVELOPMENT Self-Reliance	QTR. 3	HUMAN DEVELOPMENT Self-Confidence
USING THE RESOURCES	climate plants animals minerals	CARING FOR SELF	community health nutrition care for self growing up	BUILDING THE NEW COMMUNITY	houses community designs community services living with others
Month 1	(Weeks 1-4)	Month 4	(Weeks 1-6)	Month 7	(Weeks 1-4)
MAKING THE PRODUCTS	Food clothing tools/machinery local industry	DEVELOPING NEEDED SKILLS	physical mental emotional decisional	DECIDING COMMUNITY FUTURE	future plan gathering places community meetings corporate working
Month 2	(Weeks 5-8)	Month 5	(Weeks 5-6)	Month 8	(Weeks 6-8)
DISTRIBUTING THE DISTRIBUTION	buying selling transporting currency	DEFINING NEW ROLES	family development youth involvement women's advancement elder's engagement	UNDERSTAND- ING OUR WORLD	community nation world universe
Month 3	(Weeks 9-12)	Month 6	(Weeks 9-12)	Month 9	(Weeks 9-12)

## QUARTER 1

## ECONOMIC DEVELOPMENT

## Week 1 - Climate

- |            |   |
|------------|---|
| 1. sun     | 5. weather  |
| 2. water   | 6. clouds   |
| 3. wind    | 7. natural disasters<br>(tornadoes, hurricanes, etc.) |
| 4. seasons |   |

## Week 8 - Local Industry

1. cottage/home industry
2. community factory
3. fix-it-up place
4. flea market
5. workers

## Week 2 - Plants

- |            |                 |
|------------|-----------------|
| 1. trees   | 5. vegetables   |
| 2. flowers | 6. house plants |
| 3. fruits  | 7. seeds        |
| 4. grains  |                 |

## Week 9 - Buying

1. deciding what to buy
2. visiting market place
3. using the purchase
4. shopping in my community
5. role of buyer

## Week 3 - Animals

1. mammals
2. reptiles
3. fish
4. birds
5. insects

## Week 10 - Selling

- |                                       |  |
|---------------------------------------|--|
| 1. advertising                        | 5. role of seller(choosing what to sell) |
| 2. displaying products                |  |
| 3. create market place                |  |
| 4. being the store keeper             |  |
| 6. Vendors (pop man, bread man, etc.) |  |

## Week 4 - Minerals

- |                  |                |
|------------------|----------------|
| 1. oil           | 5. silver/gold |
| 2. coal          | 6. gems        |
| 3. heating/elec. | 7. salt        |
| 4. ore           | 8. stone       |

## Week 11 - Transporting

- |           |                                     |
|-----------|-------------------------------------|
| 1. cars   | 5. planes                           |
| 2. trucks | 6. animals                          |
| 4. trains | 7. feet                             |
| 5. boats  | 8. global (ricksha, dog sled, etc.) |

## Week 5 - Food

- |                 |                        |
|-----------------|------------------------|
| 1. from trees   | 5. from bldgs          |
| 2. from gardens | 6. fresh/canned/frozen |
| 3. from animals |                        |
| 4. from sea     |                        |

## Week 12 - Currency

1. money
2. banks
3. credit unions/savings & loan
4. cooperatives (work together to save money)
5. trading/bartering

## Week 6 - Clothing

- |               |                     |
|---------------|---------------------|
| 1. animals    | 5. seasonal clothes |
| 2. plants     | 6. global clothing  |
| 3. synthetics | 7. shoes            |
| 4. sewing     | 8. accessories      |

## Week 13 - REVIEW OF QUARTER

Choose the highlights of the quarter or days that were missed due to holidays and create events for the final week of the quarter.

## Week 7 - Tools/Machinery

1. hand tools
2. kitchen tools
3. power tools
4. farm machines
5. artists tools

## CHAPTER 2

## SOCIAL DEVELOPMENT

## Week 1 - Community Health

- 1. nutrition
- 2. organization
- 3. chores
- 4. education
- 5. prevention
- 6. doctors/nurses
- 7. health rules
- 8. community health
- 9. cage babies

## Week 8 - Decisional

- 1. I can sleep
- 2. I can follow directions
- 3. I can clean up
- 4. I can dance
- 5. I can sing

## Week 2 - Nutrition

- 1. 5 food groups
- 2. menus
- 3. junk foods
- 4. nutritious snacks
- 5. body development (bones, teeth, etc.)

## Week 9 - Family Development

- 1. four lifelines
- 2. my family history
- 3. family activities
- 4. roles of men
- 5. roles of family in community
- 6. family units
- 7. extended family (grandparents, relatives, aunts, uncles, etc.)

## Week 3 - Care for self

- 1. body
- 2. body
- 3. body
- 4. health
- 5. clothing
- 6. heart/lungs/blood

## Week 10 - Youth Involvement

- 1. favorite youth
- 2. job for youth
- 3. role of youth in family
- 4. outstanding youth
- 5. youth in community

## Week 4 - Growing Up

- 1. birth
- 2. child labor
- 3. adulthood
- 4. growing old
- 5. death

## Week 11 - Women's Advancement

- 1. famous women
- 2. woman's problems
- 3. role of women in family
- 4. women in our community
- 5. personal style/makeup shop

## Week 5 - Physical

- 1. 5 senses
- 2. excretions
- 3. teeth
- 4. bones
- 5. intervertebrates

## Week 12 - Modern Engagement

- 1. famous elderly
- 2. role of elderly in family
- 3. role of elderly in community
- 4. senior activities for a day
- 5. roles of soldiers

## Week 6 - Political

- 1. freedom
- 2. welfare
- 3. campaign
- 4. math
- 5. classifying things correctly
- 6. planning
- 7. (important things)

## Week 13 - Religion

## Week 7 - Relationships

- 1. boy
- 2. sadness
- 3. anger
- 4. loneliness
- 5. laughter

### QUARTER 3

### UNMAN DRIVEN CURRICULUM

#### Week 1 ~ Homes

1. global
2. my home/other's homes
3. caring for my room
4. different kinds of rooms
5. what houses are made of

#### Week 2 ~ Community Design

1. every town has a plan
2. exploring my town
3. city/country
4. how the town is laid out
5. preschool plan

#### Week 3 ~ Community Services

- |                |                    |
|----------------|--------------------|
| 1. sanitation  | 5. city hall       |
| 2. water       | 6. telephones      |
| 3. fire dept.  | 7. gas/electricity |
| 4. post office |                    |

#### Week 4 ~ Living with Others

1. people in my community (roles)
2. getting along with my neighbors
3. " " " " classmates
4. Safety
5. working together

#### Week 5 ~ Future Plan

- |                            |                           |
|----------------------------|---------------------------|
| 1. landmarks               | 5. town meetings          |
| 2. buildings of the future |                           |
| 3. changes in our town     | 6. how decisions get made |
| 4. how I help my town      |                           |

#### Week 6 ~ Gathering places

- |                |                |
|----------------|----------------|
| 1. school      | 6. backs       |
| 2. church      | 7. plazas      |
| 3. coffee shop | 8. parks       |
| 4. town hall   | 9. homes       |
| 5. post office | 10. back yards |

#### Week 7 ~ Community Meetings

- |                      |                 |
|----------------------|-----------------|
| 1. PTA               | 5. town board   |
| 2. women's societies | 6. school board |
| 3. fire dept.        | 7. states       |
| 4. grange            | 8. guilds       |

#### Week 8 ~ Cooperative Workdays

1. create the plan for a community "mix-a-lic"
2. gather the materials
3. do the work
4. do the work
5. celebrate the victory

#### Week 9 ~ Community

- |                          |                            |
|--------------------------|----------------------------|
| 1. history               | 5. celebrate com<br>munity |
| 2. greatness             | 6. God                     |
| 3. contribution to state | 7. rules from<br>law       |
| 4. care for my community | 8. safety                  |

#### Week 10 ~ Nation

- |                         |                 |
|-------------------------|-----------------|
| 1. states or equivalent | 6. gold         |
| 2. my state             | 7. geography    |
| 3. gifts                | 8. people       |
| 4. national holidays    | 9. US 12        |
| 5. role in world        | 9. city/country |

#### Week 11 ~ World

1. red man
2. black man
3. white man
4. brown/tan man
5. yellow man

#### Week 12 ~ Universe

- |             |                    |
|-------------|--------------------|
| 1. sun      | 5. man on the moon |
| 2. planets  | 6. moon            |

UNIVERSE  
MAN!

SUGGESTED RATIONALE FOR STAFF MEETINGS AND ASSIGNMENTS

MON	TUES	WED	THU	FRI
A look at the week ahead/ prepare materials for week	Study or work by classes on decor, materials children's records, etc.	CURRICULUM WRITING	Work by classes to write daily curriculum tailored to age group	CELEBRATION (Special refreshments etc.)

AREAS OF RESPONSIBILITY FOR STAFF (Assign staff to "run" or lead certain areas of the life of the school. Assignment depends on number of staff, complexity of activities, and general local situation.):

1. Parents
2. Health records/Daily Health Check (Immunizations, Health dept. regulations, etc.)
3. Curriculum
4. Decor/Bulletin boards
5. Building/Facility upkeep (inside/outside)
6. Food/Menus
7. Financial records
8. Visits & celebrations & fund-raising events
9. Public relations (newspapers, magazines, political structures, etc.)
10. School secretary/treasurer

## QUESTIONNAIRE ON THE PUPILS IN THE PRIMARY SCHOOLS

1. What does your mother tell you about  
the life of Jesus? Name  
the three things Jesus said  
to his father during  
the last days of his life  
to his brother John.

Pray to Jesus  
for us.  
6.32 P.M.

All the day long, the children say the words  
as they sit at their desks in school.

### III. CONVERSATION

1. What have you done today to help  
yourself and others? (This refers to Jesus' words)
2. What have been the most important events  
you have experienced during  
the last few weeks?
3. What do you expect from your God that you have not  
done yet this week? (Jesus' words)
4. What are your present thoughts, likes, dislikes, etc., etc.,  
and of what you are thinking, writing, reading, etc., etc., etc.,
5. Are there any particular ways in which you feel that you  
call upon special assistance? (Jesus' words)

### IV. READING TO GROUPS OF CHILDREN

1. Show me what Jesus said daily to you to know about him.

#### ANSWER

Answer	What did Jesus say to you to know about him?
--------	--

Concepts

Body

Are like

God's

Physical body

#### III. WORKSHOP cont'd

2. Get out as many ideas on each of the following as possible under each day.
  1. Concepts to be learned - for example, "Sun is hot," "Wind is invisible", etc.
  2. Activities (refer to tools chart) children could do, for example trees representing the four seasons.
  3. Stories, for example, water - "Noah's Ark"
  4. Trips; for example, planetarium
  5. Physical activities
  6. Songs for the week; for example "We Live in the Universe"
3. Have whole group create Monday's curriculum, then break into 2 teams that each create two days of curriculum. (How you do this step depends on the number of staff. The point is: write the best curriculum you can the best way you can.)
4. Come together, share what you have, make suggestions and give to teacher in charge of curriculum to write up and distribute.
5. List all materials needed, people who need to be asked to visit and who will do that, trips and arrangements for coming week. Make assignments for coming week. Make assignments for all tasks.

#### IV. BUSINESS

3. Discuss any issues relative to school that need to be discussed. Make any mid-week changes that need to be made.

#### V. CLOSING RHYTHM

Who are you?	I'm the greatest.		
Where are You?	In the universe	On	
Where are you going?	To dance to life,		One of your own check dg.

SONGS

I. OPENING & CLOSING THE DAY

Opening Ritual

This is the drum of the (city).  
This is the drum of the (city).  
It says to us that we can live.  
Let's be the drum of the city. Yeah!

Universe Man   Tune: This Land Is Your Land

We are the Black man. (clap hands)  
We are the Red man. (hit legs)  
We are the Brown man. (fold hands)  
We are the Tan man. (touch heart, head, sky)  
We are the White man. (wave)  
We are the Yellow man. (fold hands & bow)  
This is the land for you and me.

Chant:

Black man, Red man, Brown man, Yellow man.  
Tan man, White man, Universe man. (arms up & out)

We Are Here

Tune: Waltzing Matilda

We are here in (Fifth City) Preschool  
Out in (Chicago West)  
We sing our song  
To greet each brand new day  
We dream our dreams  
And we dance our Yes.

Good Morning Everybody

Tune:  
Good morning, everybody.  
Good morning, everybody.  
Good morning, everybody.  
We are glad to see you.

Snack Closing Song

Tune: Round & Round the Mulberry Bush

Here comes the Garbage man,  
The garbage Man, the Garbage Man,  
Here comes the Garbage Man,  
He keeps our room so clean.  
Thank you Garbage Man,  
Garbage Man, Garbage Man,  
Thank you, Garbage Man,  
You keep our room so clean.

Closing Ritual

This is the drum of the (city).  
This is the drum of the (city).  
It says to us that we can live.  
Let's be the drum of the (city). Yeah!

It's A Wonderful Place

Tune: Washington Square

(Chicago) is a wonderful place,  
The (West Side's) where we live;  
(Chicago) is a wonderful place  
The (West Side's) where we live.  
So sing all you people,  
Life is here to love:  
So sing all you people,  
Life is here to live. (repeat)

Good-Bye Everybody

Good-bye everybody.  
Good-bye, everybody.  
Good-bye, everybody,  
We'll see you Tuesday morning.

II. MEALS & SNACKS

Meal Opening Ritual

Food is good. Right?  
Life is good. Right?  
All is good. Right?

What do you say?  
What do you say?  
What do you say?

Meal Closing Ritual

Who are you? I'm the greatest.  
Where do you live? In the universe.  
Where are you going? To bend history.

Nap Song

No more bread and butter  
No more food to eat.  
Let's all close our eyes now  
An go to sleep.

### III. BASIC SONGS AND CHANSONS

#### ABC Song

A B C D E F G, H I J K L M N O P,  
Q R S T U V, W X Y and Z.  
Now I've song my ABCs  
Won't you sing along with me.

#### Four Little Monkeys

Four little monkeys jumping on the bed  
One fell off and broke his head  
Mama called the doctor and the doctor said  
That's what you get for jumping on the bed.

Three little monkeys jumping on the bed . . .

#### Five Little Speckled Frogs

Five little speckled frogs  
Sitting on a speckled log  
Eating a great big juicy fly, yum, yum,  
(rub tummy)  
One jumped into the pool  
Where it was nice and cool  
Then there were four little speckled frogs  
glub, glub,  
Four little speckled frogs . . .

#### This Old Man

This old man, he played one  
He played nice wack on my drum  
With a nice wack paddy wack  
Give your dog a bone  
This old man came rolling home.

This old man he played two  
He played nice wack on my shoe . . .

Three ~ knee . . .

Four ~ door . . .  
Five ~ hive . . .

#### ABC Chant

Big A, Little a. What begins with A?  
Alligator, apple, apron, etc.

#### Counting Chant

One little, two little three little  
iron men --- Four little, five little  
six little iron men --- eleven little,  
eight little nine little iron men  
Ten little iron men all in a row.

#### If You're Great

Tune: If You're Happy

If you're great and you know it  
Clap your hands.  
If you're great and you know it,  
Clap your hands.  
If you're great and you know it  
Then your life will surely show it.  
If you're great and you know it  
Clap your hands.

If you're great and you know it  
Stamp your feet. . .

If you're great and you know it,  
Nod your head. . .

If you're great and you know it,  
Do all three. . .

#### The People on The Bus

The people on the bus go up and down  
Up and down, up and down.  
The people on the bus go up and down,  
All through (Chicago).

The driver on the bus says "Move on back"  
The wipers on the bus go 'swish, swish,  
swish'

The money in the bus goes ding, ding, ding  
The wheels on the bus go round and round.

#### IV. WHEN THINGS GO WRONG SONGS

##### I AM ALWAYS FALLING DOWN

Tune: Old McDonald Had a Farm

I am always falling down,  
But I know what I can do,  
I can pick myself up and say to myself  
I'm the greatest too.  
It doesn't matter if I'm big or small  
I live now if I live at all.  
I'm always falling down  
But I know what I can do.

##### DOORS THAT SHUT

Tune: Hey Oh, No Nobody Home

I'm always running into doors that shut.  
But I can live no matter what.  
I'm alive and here I am.  
I decide as the only one who can.

##### THE WAY IT ALWAYS IS

Tune: London Bridge

I am always falling down,  
Falling down, falling down,  
I am always falling down,  
That's the way it always is.

Life is full of broken balloons,  
Broken balloons, broken balloons,  
Life is full of broken balloons,  
That's the way it always is.

#### V. FOR ANY TIME (Marching, diaperizing, bathroom education, individual care)

##### Hold Your Head Up

Hold your head up.  
Hold it up high  
(Delta Pace Preschool) is passing by.

##### CREATNESS SONG

I'm the greatest, you're the greatest,  
That's the way life is.  
When you know it, when you show it,  
You are free to live.

I'm a Black man, you're a White man,  
That's the way life is.  
When you see it, when you be it,  
You are free to live.

##### IRON MEN GO MARCHING IN

Tune: When the Saints Go Marching In

When iron men go marching in  
When iron men go marching in  
There'll be a new day tomorrow  
When iron men go marching in.

When (Delta Pace) has come alive  
When (Delta Pace) has come alive  
There'll be a new day tomorrow  
When (Delta Pace) goes marching in.

Oh when the world picks up the sign  
Oh when the world picks up the sign,  
There'll be a new day tomorrow  
When the world picks up the sign.

For iron men its never done  
For iron men its never done  
There'll be a new day tomorrow  
When iron men go marching in.

##### OTHER SONGS

##### I'M THE GREATEST

Tune: The Children's Marching Song

I'm the only one like me.  
I'm the greatest, can't you see.  
I want to be the great one I am;  
I'm the only one who can.

##### VOOM, VOOM ASTRONAUT

Tune: Baa Baa Black Sheep

Voom, Voom, Astronaut. Are you having fun  
With the moon and the stars and the very  
large sun?  
Do you like it, being all along?  
Or would you rather be back home.  
Voom, Voom, Astronaut. Are you having fun  
With the moon and the stars and the very  
large sun?

##### FREE TO DECIDE

Tune: Frere Jacques

Free, free, free to decide  
What this world is going to be  
This imperative is ours  
To be free, free, free to decide.

## MISCELLANEOUS SONGS

### THUNDERATION

Thunder, thunder, thunderation,  
We're the presen't generation.  
We can move with determination,  
We can change the situation.  
Thunder, thunder, thunderation,  
We're the future generation.

Universe Song  
Tune: Three blind mice

We live in the universe,  
We live in the universe,  
On the planet earth  
On the planet earth.

We look for life in the sky so blue  
And down in the ocean for something new,  
Look at the world we have on our hands.  
What shall we do?  
What shall we do?

### LIFE IS GOOD

Life is good and we can shout  
With the sun and the moon and the stars  
Life is good and we can shout  
With the sun and the moon and the stars.  
Everybody's talking 'bout the universe.  
Let's all dance to life.  
Life is good and we can shout  
With the sun and the moon and the stars  
Yeah man.  
With the sun and the moon and the stars,  
Yeah.

### I LIVE IN (FIFTH CITY)

I live in Fifth City, West Side is my home,  
I live in (Fifth City,) Won't leave it along.

Chorus:

We're gonna build it for Chicago  
We're gonna give it to the world  
We're gonna build it for (Chicago)  
We're gonna give it to the world.

(People of (Fifth City,) are black and that is great.  
Gonna give our (Blackness) to the world  
And the world will celebrate.

### I LOVE FIFTH CITY

Tune: I love the flowers

I love Fifth City,  
I love the planet earth.  
I love this day and time,  
I love the universe,  
I'm always ready  
to see this world of ours  
I tell you man I like it here,  
I tell you man I like it here. Yeah.

### VI. TEACHERS SONGS

#### Impact the World

We are on our way to impact the world  
Impact the world impact the world  
We are on our way to impact the world  
We will change history.

The world needs you the world needs me  
And so we will march together,  
so we will march together, so we  
will march together.  
To change history. *(Repeat lines 1 & 2.)*

Education needs you education needs me  
And so we will teach together,  
so we will teach together,  
so we will teach together.  
Education needs you education needs me  
And so we will teach together  
To change history.

(Delta Pace) needs you (Delta Pace)  
needs me  
And so we will stand together,  
so we will stand together,  
so we will stand together.  
(Delta Pace) needs you (Delta Pace)  
needs me  
And so we will stand together  
To change history.
