Jan,

Sorry for not getting this together for you. I'm really not an excellent typist. If you should have any problems, reading or understanding my scribbles, please call, I'll be at work until 4:30.

Take a few minutes to read this draft thoroughly & try to piece it all together. If you wouldn't mind, could you make a copy for me of the final masterpiece, send it to:

I hope this will help, good luck!

Thanks for the opportunity to help someone, who's done so much for me!

Dear Jan:

I am writing to you, to again thank you for the great change that that has been made in my life, since I have attended Training, Inc.

I don't know if you will quite remember me. I was in your class 5 years ago. The thought that it has been 5 years is what brought my writing to you to let you know some of the success that has come to my life.

When I was in your class I was on public assistance, had a small child and no real education to speak of. I was in a low paying position and really no way of bettering myself. Then I heard of your program and decided to give it a try.

This has all changed thanks to the staff at Training, Inc. If it wasn't for their caring, understanding and ability to provide this program, I never would of come this far.

I have a very well paying position with Daubert Industries, Inc. I started here right after I left Training, Inc. This coming March I will be here 5 years. I have a very excellent benefit program including profit sharing. Since I have been employed at Daubert, I received a review and raise every year. I received two promotions in the 5 years I have been here. I have also qualified for a program in the company, which is the "Employee Suggestion" program. I made a suggestion to help provide a new way of handling the company freight claims and to save this company money. They rewarded me with a check for \$750.00. Nothing has ever been this great.

They also have a program set up for employees who go back to school they reimburse you for tuition and books. I have just recently attended evening classes to refresh my education and try for the High School Diploma I never received. I took the tests and I have passed. I am going on this Spring to take classes in the field if which I am working.

I have a very good chance at becoming Daubert Industries Corporate Traffic Manager. Since I have been at Daubert, I have been accounting clerk, employed in the accounting department to pay freight bills. Since the time I started in March 1981, several changes have taken place and I have made the necessary adjustments. I am now the Accounts Payable/Freight Clerk and also Assistant Traffic Manager. Hopefully after the classes I plan to take in the spring, I will go for a degree in Traffic and Physical Distribution. Then I will qualify to be Traffic Manager.

This will be a great opportunity since the Traffic Manager that has been with DII for 38 years has now retired. I am the only one in the corporate office to know what is going on! I have recently learned that our company pays approximately 1 1/2 million a year on freight.

In the evening classes I recently attended for my High School Exam, there were a few people going for the same reason to better themselves. One woman in particular I have referred to come to see you. She is divorced and has no experience or education to go out and make a living. She has a daughter that she is supporting. Her daughter is a lot older than mine. She is 22 and she's been in a serious accident, making her unable to help with her support.

I know it will be as good for her as it was for me. Again, thanks.

Sincerely,

*Beverly*
