

The Urgency of the Climate Crisis

WHAT INDIVIDUALS CAN DO

1. Educate yourself on climate change and help increase awareness by talking to friends and family.
2. Lobby political leaders and the media to help create the political will to stop burning fossil fuels and rapidly change to green energy.
3. Vote for political leaders who see the climate crisis as their #1 priority.
4. Divest from fossil fuel companies and invest in renewables.
5. Calculate your carbon footprint (carbon footprint.com) and develop a plan to reduce it.
6. Install solar panels, if feasible.
7. Become vegetarian or vegan.
8. Use public transportation when possible.
9. Join a local group addressing the climate crisis.
10. Donate financially to climate action groups.
11. Work with others to help build local community resilience.
12. Plant trees!
13. Buy an electric car.
14. Join a support group of people, such as the *Climate Adaptation Circle*.
