THE CHRIST LECTURE

The Christ Event is that event in everyman's life that forces him to say "yes" or "no" to the underlying YES pronounced on his total life. It is an offensive word that seizes his life--pushing him out over the abyss and demanding that he die to his illusions about life and embrace his true situation. In the dynamics of the event, it is revealed that all his good, his life is received, the past is approved, and the future utterly open. The Event became a cosmic and revelatory event for every age and culture through the Church's story of Jesus the Christ as one who showed up as the temporal event to declare the eternal possibility about life. Out of that event was created the Christian community which has sustained the story of possibility history long and world wide as THE WORD AND THE ONLY WORD about life.

THE CHRIST EVENT SITUATION

The Christ Event is a concrete happening which occurs repeatedly throughout life, thereby radically and continually altering your self understanding of humanness. This happening is the result of someone other than you bursting your illusions and forcing you to face the reality of life. Your response is to defend yourself so as to avoid dying to these illusions; consequently, you must decide to say "yes" or "no" to the you as you are.

THE CHRIST EVENT WORD

The Christ Event Word thrusts into our lives, transforming our lives in history, present, past and future. It pronounces all goingness as appropriate; all that we are as a gift, all that has come before us as approved, and all the future in our hands to create.

THE CHRIST EVENT DYNAMIC

The Christ Word Event seizes me in my complacency. I am offended by the demand made on my life, and I am driven to make a life decision which brings about the death of my illusions.

THE CHRIST EVENT STORY

The Christ Event story is that dynamic which occurred world wide and history long. It is that event which brought the community called the Church into Being; And it is that community which gave the Event uniqueness or decided to call that "Lord" and only through the fact that the church has decided the Christ Event to be the focal point of their perpetuation and expenditure has it been possible for the one revelatory event for men's lives to be preserved.

CHRIST EVENT SITUATION

The Christ event is a concrete happening which occurs repeatedly throughout life, thereby radically and continually altering your self understanding of humanness. This happening is the result of someone other than you bursting your illusions and forcing you to face the reality of life. Your response is to defend yourself so as to avoid dying to these illusions; consequently, you must decide to say "yes" or "no" to the you as you are.

EVENT

The Event is that act or action not an idea, which you experience not intellectually, but concretely in your life--not just one in a lifetime, but many times in everyday situations. It is that event which radically alters your entire self understanding of what it is that you are about as a human being.

INTRUSION

The Intrusion is the experience of having your illusions pierced by someone else. When this happens, all illusions which make life safe, bearable and protected from the unknown are removed, and you are forced to view that fact you have chosen to justifiably ignore. As a result of this experience, your whole life and image are called into question.

DEFENSE

When your life is called into question, you are threatened and therefore, defend yourself. This defense can take the form of building a new illusion, killing the intruders by dismissing his intrusion as irrelevant, or by pointing out the weaknesses of the intruder. In any case, it is obvious by your actions that you have seen the handwriting on the wall of the impinging death of yourself.

DECISION

But the intrusion will not go away. Your illusion has been burst, and you face your guilty fear-filled life as it is. Do you create a new illusion to hide from your situation as it really is, or a new idol to stand before--or do you choose to embrace your life as a gift?

CHRIST EVENT WORD

The Christ event word thrusts into our lives, transfixing our lives in history, present, past and future. It pronounces all goingness as appropriate; all that we are as a gift, all that has come before us as approved, and all the future in our hands to create.

ALL IS GOOD

The word reveals to us that all is good, meaning that the whole world, just as it is, and precisely because it is, is good. Therefore, we cannot distinguish between "good" and "evil", rejecting one and accepting the other. We are enabled to accept suffering, injustice and tragedy, since that is a part of the whole, which is proclaimed by the word as good.

ALL IS RECEIVED

All is received is that part of the word that tells us that our life as it is is the life that is needed and our death that is offered is a gift in history. The neurotic human beings that we are, created out of our past, the fact of our contingency upon other lives at every moment, our own failure to stand totally present to the other, and the limitedness of our lives is an offering.

ALL IS APPROVED

As we reflect on the past we can see it in all its brokenness and failure. But it influences our lives only by being that which has produced our good and received present. It is, as the foundation of the present, that we see the past as approved.

ALL IS POSSIBLE

With the assurance that all is good, all is received, and all is approved, we are made aware of the possibilities open to us. There are no shackles to bind us. As products of our past, our fates, our shoved-upness, we can start a course for the future, reformulating images, changing the seemingly unchangeable; daring to create history, regardless of the challenge or risk.

CHRIST EVENT DYNAMIC

The Christ word event seizes me in my complacency. I am offended by the demand made on my life, and I am driven to make a life decision which brings about the death of my illusions.

SEIZURE

The dynamic of the Christ event begins when it becomes clear to me that the Word has my name on it. This word brings to everyman the demand on his life to live in the situation which he must define for himself. It raises the question of what meaning I have given to my life and pushes me to the point where I must make a decision about who I am and what my relationship is to the rest of society.

OFFENSE

The offense of the Christ event calls my whole being into question and pushes me to acknowledge, "yes" that is the way life is, or "no" that is not the way life is. This word offends my desire to appeal to a final authority; it offends my need for emotional security; and it demands a life decision from me.

DECISION

Finding myself out over an abyss of meaninglessness and emptiness with no relevant authorities or values, I must decide to live in that chaos. The imperative is for me to decide to thrust my life in a certain direction, to take a relationship to the mystery, and to live out of the possibility of the Christ word.

DEATH

When I have finally thrust my decision into history through the Word, I die to that illusion spoken by that event. I then embrace my true situation, realizing that though nothing is different, everything is transformed.

CHRIST EVENT STORY

The Christ Event story is that dynamic which occurred world wide and history long. It is that event which brought the community called the Church into Being; And it is that community which gave the Event uniqueness or decided to call that "Lord" and only through the fact that the church has decided the Christ Event to be the focal point of their perpetuation and expenditure has it been possible for the one relevatory event for men's lives to be preserved.

JESUS

There is an event in history which called men to deal with their creatur-
liness - which called men to deal with
their situation. It does no good to
question from where it came or the
validity in the vehicle whereby the
dynamic occurred. It was this hap-
pening which brought the church into
being by illuminating the Word about
life in the present, past and future
as possibility.

THE CHRIST

The Event was attached with universal
significance of the past, symbolizing
that as the Lamb on the lap of the
Father, thrust into temporality by
the Virgin Birth and ascending out of
history into eternacety for the per-
petuation of the Word in the future.

OUR LORD

To pronounce that Lord is to take a
relationship to that story or it is
our decision to say this is my Lord.
To say that I fall on my knees to
only that understanding about life.

JOHN DOE

It finally announces that my situation,
my past, and my future are received.
The secret of all history is that, that
very S/C is available to all - or that
it is possible to call the story of
humanness - my own story -- the story
of my life.
