Tillich says there are few words more strange to us than SIN and GRACE. Strange, because they are so well-known, have become distorted. They cannot be replaced. Substitutions not work. There is a way to rediscover their meaning, look into deeper levels of our life, to see if discover reality.</p> <p>P#3 Tillich is famous for starting with what is not. *What does he say sin is not? (immoral act What mean? *What else it not? When hear people talking about sins, what talking about? *What else? (Division) Why not helpful. Which side do you come out on? *Which one of these categories is most familiar</p> <p>P4. Tillich suggests another word to us, separation. *Why not write paper about separation? *Why not just substitute word separation? *What are the three kinds of separation Tillich mentions? (self, others, GOB) *This threefold separation has 2 aspects. What are they? *What is the difference between fate and guilt? (fate--given, and guilt, actively participate in) * How long does this state of separation last? *Read last sent. What does state mean? What state is a fish in? (Water, that which surrounds me)</p> <p>P.5 Tillich gives first clues on grace. Starts with not. Fill in chart? Are there any left out? *Which of these seem most familiar to you? May need a grounding example or two. Short course, that all of these experiences are fine, but they are not grace. *What does he say grace is? Get out list. Check with chart on Pg.2 of lesson plan.</p>

There are 3 questions that Tillich asks in <u>P.7.</u> <ul style="list-style-type: none"> *What is the question in the opening sent. *When last happen to you? Last 48 hours? *Experience of everyone? (Begin to fill in chart, fate first....) *How participate in that? (Fill in under guilt..draw back into self. 3. Read the 2nd question. Tillich is talking about the hidden center of another. He says can not even penetrate, what's another word? <ul style="list-style-type: none"> *Someone give an exmple. This not only true for others , but self. *Where get in difficulty trying to get to self? *How do we participate in that? 4.*Read Immanuel Kant's quote and the question following. <ul style="list-style-type: none"> *Who can give an example? *Where experience in self? Last time you read a newspaper, what fatedness hit you? (ex. he uses starving children in Europe) *When you run into something like this, how do we actively participate in it? What do we do? (ignore) *What are ways people try to ignore social separation? *What mean to sit down to breakfast and stand present to separation?
