PERSON BOOK	• NOT S/C NAMED DISCIPLINE	ADAM SMITH THE WEALTH OF NATIONS	KARL MARX DAS CAPITAL	JOHN MAYNARD KEYNES GENERAL THEORY OF EMPLOYMT, INTEREST & MONEY	OIL EMBARGO REVEALED WORLD MARKET.
KEY DYNAMIC	• ECONOMIC DYNAMICS EXISTED • LAND WAS NOT EXCHANGEABLE ASSET	THE MARKET PLACE WHERE BUYER & SELLER COME TOGETHER IN COOPERATION & COMPETITION	MEANS OF PRODUCTION IS WHAT MAKES PROFIT	INJECT INVESTMENTS INTO A STAGNANT DEPRESSED ECONOMY	NO LONGER ECONOMIC CONTROL OVER POL. USA PUTS GRAIN EMBARGO ON USSR FOR INVADING AFGANISTAN, SO USSR BUYS GRAIN FROM ARGENTINA WHO BOUGHT IT FROM MEXICO WHO " " " USA.
KEY PROCESS	• LAND WAS ACCUMULATED STATUS • LABOUR WAS BOUND TO TRADITION OR AUTHORITY • LABOUR WAS NOT FREE CONTRACT • CAPITAL WAS NOT INVESTED AS A CONSCIOUS ACT IN ECONOMIC VENTURE [WEAVES TRIED TO ORGANISE TO INTRO. NEW MEANS OF PRODUCTION IN BELGIUM — CONSIDERED IMMORAL BY STATE & CHURCH]	MARKET PLACE • CAME OUT OF SELF-INTEREST • SELF REGULATING • INVISIBLE HAND → SOCIAL GOOD ① Buyer & Seller come together in cooperation & Competition. Consciousness was shocking and motivity ② Supply & Demand for Goods & Services is perpetual struggle for Equilibrium. If flood market, I am forced to lower prices, my self-interest is not met and my motivity gone. ③ Invisible hand will make total result of all self-interests be for social good. # of workers, wage scale in comparison to working population. If wage too high outsiders come for piece of action. If too low not Services. SPIRAL UPWARD	CAPITALISTIC SYSTEM • ALL IS RIGHT WITH SEEDS OF OWN DESTRUCTION • NO PLANNING • LARGE MASSES & ACCUMULAT ① Ideal system has seeds of destruction ② No market place planning. ③ Market place produces an added profit. COST OF GOODS + COST OF PRODUCTION = SALES ④ MEANS OF PRODUCTION — NOT GETTING THEIR FAIR SHARE (WORK FORCES) ⑤ PROLOTARIATE CONTROL PLANTS/FACILITIES/LAND OWNERSHIP AND BECOME EXPLOITERS ⑥ ACCUMULATED PROFITS WOULD BE SAVED & INTEREST RATES WOULD RISE	WORLD WIDE — DEPRESSION RISING PROLOTARIATE ① SMITH IS WRONG IT IS NOT SPIRAL UPWARD WITH SELF-INTEREST → SOCIAL GOOD ② MARX ANALYSIS IS CORRECT BUT IN TIME OF CRISIS THERE IS NO PRIVATE INCENTIVE TO INVEST SAVINGS ③ TIME OF CRISIS SAVINGS DRY UP (PEOPLE LIVE ON THEM) AND NO PRIVATE INVESTMENTS ∴ OUTSIDE INJECTION OF CAPITAL FROM GOVERNMENT — ROOSEVELT/LABOUR MOVEMT/	SCHWARTZ & OGILVY SAW NO EVIDENCE OF ECON OPERATING OUT OF NEW PARADIGM. THE NEW 1. EUROPE JAN TINBERGEN NOBEL PRIZE "ECONOMETRICS" USING COMPUTER TO GET AROUND DATA OF GLOBAL MARKET. EDITOR OF RPT ON INTER. ORDER — PROFESSOR OF BRANDT REPT. • REGIONAL ECONOMICS — PUT LABOR INTENSIVE INDUSTRIES (TEXTILES) IN 3RD WORLD — EUROPE IS MOVING FROM INDUSTRIAL BASE TO INFOR MATION BASE (JJSS) ∴ 3RD WORLD CITIZEN GO BACK TO COUNTRIES TEN NATIVE EUROPEAN TO DO MANUAL LABOUR • REQUIRES LOCAL STIMULATION  • RESOURCES USE (HUMAN) • TOTAL COSTS IN MOBILE WORLD
FLAW		NO PLACE FOR POOR TO WORK → TRAINING IN SKILLS DICKENS — CALLED FOR ENLIGHTENED SELF INTEREST	NO PLANNING LED TO RECESSION DESTRUCTED ACCORDING TO PLAN.	WORLD MARKET OPTIONS BECAME VIABLE •
