PARAMOUNT TACTIC: CREATE SIGNAL CARE STRUCTURES**BASIC TACTIC 1 Develop Comprehensive Care System****INTENT**

In order to coordinate and effectively deliver optimum care services which will enable the community to move forward energetically into its signal role to the globe, there is a need to develop a comprehensive care system; that is, to analyze the care needs and to develop geo-social care structures.

DESCRIPTIVE

The implementation of this tactic will begin on the second week of Quarter IV with the Guild selecting the 5 ward centers for Uptown 5 and establishing the initial rationale and procedures for ward activation; on week 3 the Guild will send representatives to meet with ward leadership and set a place and time for 5 ward gatherings to be conducted weeks 6, 8, and 10. On the week II of week 6 the Guild will utilize ward residents in the doing of a physical services survey. The Guild will coordinate with the ward leadership and residents to perform a ward sign to be done week II of week 8.

BASIC TACTIC 2 Establish Information and Engagement Network**INTENT**

In order to create and enable concrete structures for local care to take place and to have grassroots participation in acting out their community care, one basic tactic is to initiate a rational geographic network for local community at the levels of stake, ward, and parish to provide a signal engagement vehicle which gives form and means to community participation anchored in the reality of the day to day life situation.

DESCRIPTIVE

The implementation of this tactic will begin in week II of week 2 of the quarter when gridding of the wards to the stake level will be done in conjunction with the selection of ward centers referred to by Tactic 1, by the same group. During week II of week 6 a community services survey will be conducted by a task force of Guild and ward-stake leadership. During this time sites will be selected for a ward sign to be created during week II of week 8 by a similar task force.

PARAMOUNT TACTIC: CREATE COMMUNITY RENEWAL METHODS**BASIC TACTIC 3 Determine Issues and Potential****INTENT**

In order to catalyze significant grassroots participation in creating the community vision and the planning to realize it, one basic tactic is to determine the key issues and potential of the community by utilizing the methods for creation of a battle plan through which the community at large participates in the articulation of the community vision, determines the contradictions facing the community, creates effective community proposals and forges the necessary tactics.

DESCRIPTIVE

In the 5th, 7th, 9th, and 11th weeks meetings between the Guildsmen responsible for each ward and the ward leadership will take place. The meetings in the 5th week will be to plan the first ward meeting and the next 3 meetings will be for reflection on the previous week's ward meeting and planning for the next ward meeting. Self-conscious training in social methods will also go on by Guildsmen at these Ward Leadership Training Sessions. A Local Community Convocation will be held week II of week 9 at Peoples Church for residents throughout Uptown 5 for local community visioning.

BASIC TACTIC 4

Develop Community Skills

INTENT

In order to create community renewal methods to actionalize comprehensive Uptown renewal one basic tactic is to develop community skills by the following:

Develop imaginal methods to give grassroots ability in creating the necessary creative images which give permission for people to see their existence as depth-filled, unique, and significant;

LENS education to globalize awareness of 20th century living and to present the possibility of engaging in it;

Education in Social Methods which provides practical abilities in utilizing corporate methods to effectively accomplish community reformulation; and

Education in guild dynamics to expose and cultivate a comprehensive attack on community renewal that offers engagement to all persons.

DESCRIPTIVE

A LENS course will be held for 60 Uptown 5 residents week II of week 4. Participation of Guildsmen in the recruitment of this LENS course during weeks 2-4 will provide practical training and use of skills. A PSU will be held week II of week 5 to develop a comprehensive community training model for one year.

PARAMOUNT TACTIC: CREATE EFFECTIVE GLOBAL STORY

BASIC TACTIC 5

Build Story Relevant to Time and Place

INTENT

In order to create an effective global story for Uptown one basic tactic is to create a story that is relevant to time and place. This is to allow the Uptown community to break loose from the prevalent images locked in a rural mindset and traditions and to receive Uptown as playing a crucial role in the creation of structures for the 21st century community on behalf of the peoples of the world in the midst of the urban revolution. The tactic is to create an Uptown myth which would articulate the role of Uptown in the global context and in its role to the city of Chicago. The myth would also articulate the community's past accomplishment, point to the futuristic possibilities and potentialities and hold up the gifts of Uptown (particularly that of diversity in the community).

DESCRIPTIVE

A Tactical Guild Group (4 people) should be selected at a Guild meeting prior to week 5. This Tactical Guild Group will meet at a pre-Guild dinner at the Uptown 5 Post on Tuesday of week 5 before the Guild meeting to decide how to best utilize the conversation at the Week 5 Guild Meeting as a vehicle to discuss TIME, PLACE and GIFTS of Uptown to develop the story of Uptown. Week II of Week 5, either Saturday or Sunday, a PSU of the Tactical Guild Group will be held at the Institute of Cultural Affairs. This will be used to analyze data and to develop further tactics for development of the Uptown Story. Thirty minutes of the Guild meeting, Week 7, will be used to further develop and finalize the story. This may be done either with the Guild as a whole or by breaking up into small working groups. The Tactical Guild Group will meet week II of Week 7, Saturday or Sunday, at the Institute of Cultural Affairs, to publish the story in mimeograph form and mail to all Guilders.

BASIC TACTIC 6

Projection of Story of the New Uptown

INTENT

In order to create an effective global story one basic tactic is to project a new story of Uptown by creating community symbols and by developing story forms as well as instruments to communicate that story which at once show the community its futuristic possibility and global relatedness.

DESCRIPTIVE

The Tactical Guild Group, meeting week II of week 5, as it develops the story will simultaneously develop it into a pageant of Uptown. During the task force of week II of week 7, tactics will be developed for finalizing the published story into pageant form. Tactics will be developed for presentation of the pageant during a Festival of week II of week 12, and for further publication of the story through extensive use of multi-media.

PARAMOUNT TACTIC:

CREATE COMMUNITY ENGAGEMENT FORMS

BASIC TACTIC 7

Engaging in Local Events

INTENT

In order to create community engagement forms the basic tactic is to enable the engagement of local people by utilizing current community events and major holidays thereby bringing significance to those events and by creating community-wide events and local festivals which will celebrate and rehearse the particular story of Uptown.

DESCRIPTIVE

In order to engage the community in local events the Guild will sponsor a local intercultural festival and an Elders' picnic as well as assist UCC in planning a local Festival. The intercultural festival is intended to celebrate the particularity of Uptown 5's global gifts. The Elders' picnic will be an ongoing means of engaging the Elder in the life of the community as they continue to explore their role in the community. The intercultural festival

will take place in week II of week 12, June 29, in the parking lot across the street from the Kemper Building. A Guild task force will be responsible for planning the intercultural festival on week II of weeks 3 and 5. Subsequent planning meetings will be designated. The Guild will attempt to engage the various cultural communities in the festival. The Elders' picnic will be held on week I of week 8 Memorial Day at Lincoln Park (in Uptown 5). The planning will begin during week II of week 3 at an Elders' PSU at the Kemper Building. Subsequent planning meetings will be designated. Recruitment for the picnic can be based upon the model used for the Elders' Ball. A person needs to be designated in week 2 to contact the Mayor's Office to provide for transportation. A Guild task force will be designated during week 2 Guild Meeting to work with UCC to plan for UCC Festival to be held week II of week 4. This needs to be coordinated with the need for LENS recruitment.

BASIC TACTIC 8 Create Grassroots Participation

INTENT

In order to create the grassroots participation necessary for practical renewal to take place, forms of involvement of every aspect of the community will be created and scheduled to include businesses, schools, social agencies, churches and ethnic groups; coordinating action centers will be established, the Guild developed and a rationale for PSU's, task forces and core meetings build. This is done in order that the community might have a practical means of acting on its concerns.

DESCRIPTIVE

In order to create grassroots participation necessary for practical community renewal to take place, the Guild will sponsor weekend PSU's in Housing and Elders, and will sponsor a series of 3 businessmen's luncheons. The Guild Housing Task Force will sponsor a series of 4 weekend PSU's on week II of weeks 3, 7, 9, 10. During the first PSU we will make assignments relative to researching sites, investigating finances, following up on tax status of property. The first PSU will be held at the Kemper Building and the other PSU's on housing will be held at selected node sites in Wards 2, 3, 4 where housing signs are projected. Planning for housing task force will be done on week II of week 2 (Saturday morning). The Guild Elder's Task Force will sponsor 2 weekend PSU's at the Kemper Building on Week II of Weeks 3 and 7 with the possibility of subsequent PSU's. The intention of the PSU' is to bring together the leadership among Elders to further formulate their vision for the future of the community, and specifically to plan for some Elder's LENS courses. The Guild will also sponsor a series of businessmen's luncheons during week I of weeks 6, 8, and 10 at the Kemper Building in order to bring together their vision for the community. We will begin in week I of week 3 to develop a list of 20 businessmen who represent both older, established businessmen and the new ethnic businessmen. Recruitment will begin in week 5 with visits to businessmen by Guild task force.

BASIC TACTIC 9 Establish Symbolic Nodes

INTENT

Because it has shown to be impossible to act in the general welfare by supporting individual community interests, it is incumbent upon any improvement effort to act so that a symbolic community node will be established to allow for the collection of information and the dissemination of the resultant community consensus as well as to pass forth publicly supported symbolic manifestations.

DESCRIPTIVE

During the Guild Meeting in the 2nd week of the Quarter a brainstorm will be done on Criteria and possibilities for a node. This data will be assigned a group of Guildsmen to expand further and in week 6, a more particular investigation will begin. The assigned group will make bi-weekly reports to the Guild until a selection is made.

PARAMOUNT TACTIC: **CREATE COMMUNITY CONSENSUS FORM**

BASIC TACTIC 10 Develop Comprehensive Communication Network

INTENT

In order to develop comprehensive community data gathering network tactics to develop channels of communications throughout the neighborhoods, development of cross-structural approaches to issues and concerns as well as forging a community calendar and intensifying public relations with forces outside the community will be one basic tactic. This will allow the community to have comprehensive access to information affecting its life.

DESCRIPTIVE

On week 2, a concerted effort will be made to have the Guild included on a mailing list of Uptown organizations. Warren Clark will be in charge of the project. Assignments for typing, mailing, and checking the inclusiveness of the present list will be made at the week 2 Guild Meeting. The Guild will create a speaking engagement calendar during PSU's during week II of week 2. A common speaking format and a prospective contact rationale will be developed at the PSU's. The Guild also will create a visual presentation of photographs to use on speaking engagements during week 4.

BASIC TACTIC 11 Develop Town Forum

INTENT

In order to establish a symbolic meeting where the community can rehearse its story, discuss its present situation and consense on the direction of the future, the Guild will sponsor a town forum for Uptown 5. This is for the purpose of creating the community's will and integrity through information exchange by representatives from across the community working on a plan of action.

DESCRIPTIVE

The Guild will hold a planning meeting in week 9 to work out agenda, location, and recruitment. Then on week II of week 11 the actual

Presidium will be held aimed at rehearsing the community story and consensing on the direction of Uptown for the summer.

BASIC TACTIC 12 Disseminating Community Information

INTENT

In order to keep the community informed the use of mass media combined with establishment of local kiosks will be used through a regular method of information dissemination and the use of a center where data can be obtained.

DESCRIPTIVE

In conjunction with the Ward Physical Services Survey a Kiosk locale will be chosen by each ward in week 6 at the ward meetings and implemented on week II of week 8.
