The Institute of Cultural Affairs Venezuela (ICA Venezuela) is concerned with linking and supporting persons who share a common concern for the future of the planet. We are offering a program of individualized cultural immersion to fit your needs and to enable your experience of the changes happening on this planet. The program for you could include any or all of the above options. ICA Venezuela staff, with a combined experience of 60 years in multi-cultural depth processing, would make available to you methods for putting together the program you want.

Residency possibilities include both an urban and a rural option. Urban residence would be in ICA's Centre for Human Promotion in a residential neighborhood close to downtown Caracas with double and single room occupancy available for individuals or families. Common space is available for other activities. The rural residence is in ICA's training center in Cano Negro, a small village about two hours from Caracas where ICA has worked for ten years in community development.

This program is available anytime of the year. We recommend a stay of at least one month, but our experience has shown that a longer time period will be more beneficial to you. In making your specific plan, the language programs are given by Centro Venezolano Americano with the following schedule: June 26 - August 17, August 28 - October 17, October 19 - December 11, January 9 - March 1, March 3 - May 2, and May 4 - June 22.

A monthly cost estimate of \$650 USD per person includes:

- 1) \$400 -- overall program (room, orientation, individualized program plan)
- 2) \$100 -- food
- 3) \$50 -- two-month formal language program option (\$100 is total two-month cost)
- 4) \$100 -- miscellaneous (recreation, transport, etc.)

(You are no doubt aware of the recent social outburst of February, 1989 in Caracas. As residents of Caracas, we believe that unfortunate and dramatic as it was, this did not fundamentally threaten the social peace of the nation. Fortunately, because of the compassionate and intelligent way in which the events were managed, they are actually serving to strengthen the process of democratic collaboration and compromise in Venezuela.)
