TO BUILD A FUTURE

Tune: You are My Sunshine

We were a mixture of many peoples,
We came to claim the right to live.
We found each other,
We worked together,
We became the envy of all.

Today we wonder where we are going,
We fight and falter, we lose our way,
We now are asking what is of value,
For the future's fresh dawning day.

To build a future for every neighbor,
To see ourselves as friend to all,
To love the land and share it wisely,
Will make the whole world very small.

Written at Lacey Town Meeting
Washington, February 1, 1975

MARCH ON TOGETHER

Tune: Battle Hymn of the Republic

From every land they journeyed in the hope of something new,
And they formed a nation painfully 'midst troubles never few.
But their vision never clouded and their courage held strong too,
These local men marched on.

Chorus:

Every man march on together,
Every man march on together,
Every man march on together,
To the call of history.

Our eyes have now consensus and our spirits now engrave,
Let us now stand up and claim it, this great world so long delayed.
All our eyes have seen the glory of the spirit on the heart
Which leads us ever on.

All local men are building into one community,
All the people of the universe including you and me,
The future is a-beckoning for worlds we cannot see,
To which we all march on.

Written at Whittier Town Meeting
Minneapolis, Minnesota, March 8, 1975

KEMPER CITY SONG

Tune: The Happy Wanderer

Our land was forged by those who dared
To face the vast unknown.
We follow them for every one,
The whole world is our home.

Chorus:

All the goods
All the power
All the gifts of each and every one of us,
Belong
To all the earth
And all peoples shall be free.

Freedom is the right of all,
We have decided this.
We watch and fight for all the rights
With those who risk the way.

We journey with inventors bold
Who built our cities tall,
Who opened doors to fuller life,
Abundant life for all.

We had a dream of this new land
Where all could now be free
We built our dreams and now we dare
A new society.

Written at Kemper City Town Meeting,
Chicago, Illinois, March 13, 1975

NEVER GONNA HAVE THAT CHANCE AGAIN

Tune: Hello, Dolly

We were a searching people
 And a zestful people
 And we came from many lands across the sea.

We were merchants and farmers,
 We were slaves and charmers
 And we dared to face the struggle individually.

But we got up one morning,
 Saw a new world dawning
 After night and 'I' were left there all alone.

He saw his brother, and
 She saw her sister, and
 We saw the oneness of us all.

And now we move forward
 To that unknown future
 Which depends on what we all decide to do.

We have our hopes ready
 And our task waiting
 And it's our responsibility to bring it through.

And this calls forth courage
 To accept challenge
 And produce a revolutionary way.

Stand up and be counted,
 The world's on your shoulder,
 Never gonna have that chance again,
 Never gonna have that chance again,
 Never gonna have that chance again.
 O.K.

THE NEXT 200 YEARS

Tune: When the Saints Go Marching In

Into this land so vast and green
 Our fathers came to build a dream.
 Through war and peace they worked together
 It was a great 200 years.

Oh, we are now in times of strife
 We're at the crossroads of our life.
 It's time to make that great decision
 To shape the next 200 years.

Oh, we are one. We share the earth
 We give our lives for its rebirth.
 We'll be a sign to all the nations
 For the next 200 years.

Written at Clarksburg Town Meeting
 West Virginia, March 22, 1975

THE NEW "U" COMMUNITY
Tune: God Bless America

New U Community
Come forth with me.
We will all strive together
To shape our destiny.

Chorus:

When U Street
Is a new street,
And the nation,
As a whole,
Builds new communities
Around the globe,
New U communities
Around the globe.

New U Community,
Rising anew
From the ruins and the ashes
We can see, we can care, we can do.

Washington, D.C., March 22, 1975

CREATE A NEW DAY
Tune: Consider Yourself

Consider the past, it's good.
Respond to the now, it's for everyone
Create a new day, start now
Set sail, fly, you can work miracles.

When the Continental Congress met those years ago
They made a brave new dream come true;
When the covered wagons hit the trail for Oregon
Men were 'going to the moon.'

Consider the past, it's good,
Respond to the now, let's act!
With faith in one another to achieve our goals
Create a new day, right now!

Colorado, March 22, 1975

WHAT A COUNTRY
Tune: Bye Bye Blackbird

The people came from far away
Together we've come a long, long way

After 200 years
Thru struggle, toil, and tears

Our forefathers had no fears
The constitution will last for years
We made our choice and it was right
For the red, blue and white

FREEDOM'S STRUGGLE

Tune: I'd Like to Teach the World to Sing

They struggled for their freedom then
We struggle for it yet
We've made some progress, but we know
We haven't finished yet.

Freedom was a Bill of Rights
But it's more than that we see
It's brotherhood, it's humanness
It's love in you and me.

My hand in yours, your hand in mine
We keep our vision high
We see God in each other now
Our freedom's goal is nigh.

Written at Bartlesville Town Meeting
Oklahoma, May 10, 1975

OH WHAT A BEAUTIFUL FUTURE

Tune: Oh What a Beautiful Morning

There's a bright golden glow to our history,
There's a bright golden glow to our history,
We would gather together to sing and to play
At our roller skate rink that we don't have today.

Chorus:

Oh what a beautiful future
Oh what a beautiful day
We'll build a beautiful place here
Growing with love, hope and care.

We have kids in our streets on their bikes now,
But they fall in the holes in our streets now,
If you can rent a house, have a dog not a spouse,
And be sure to wear earplugs to keep out the noise.

Written at Casper Town Meeting,
Wyoming, May 10, 1975

OH I'VE GOT A VISION

Tune: If I Had A Hammer

Oh I've got a vision, I'll shout it to the people.
I'll shout it in the cities all over this world.
I'll shout out freedom, I'll shout out sharing,
I'll shout out love between my brothers and my sisters,
All over this world.

Oh I've got a banner, I'll carry it to the people,
I'll carry it through the cities all over this world.
It'll spell out freedom, It'll carry out sharing,
It'll sing out love between my brothers and my sisters,
All over this world.

Oh' I've got a song, I'll sing it to the people,
I'll sing it in the cities all over this world.
I'll sing out freedom, I'll sing out sharing,
I'll sing out love between my brothers and my sisters,
All over this world.

Oh I've got a vision, and I've got a banner,
And I've got a song to sing all over this world.

All over this world.

SONG OF HISTORY

Melody: Sweet Betsy From Pike

I sing you a song of 200 years
Of glory and honor and trials and tears.
And of the people who built a great land
With the sweat of their brows and the work of their hands.

With their courage of spirit and the fire of their youth
Their yearning for freedom, their quest for the truth,
They built the great cities and traversed the plains
And lived the history we now proclaim.

Chorus:

Led by Washington, Jefferson, Lincoln and Ike,
Boone, and Bridger, and Rankin, and Mike,
Tubman, and Carver, and King and all,
Sequoyah, and Joseph, Chief Red Cloud and Gall.

The blessings of liberty, our fathers' proclaimed.
To explore the great West was Jefferson's aim
While the growth of industry had just begun
A still young country took its place in the sun.

Till brother met brother in armed destiny
Led by Grant and the great General Lee,
people were freed, and a Union was saved
And millions for centuries will mourn o'er the graves.

Chorus

The dreamers' hearts beat out the wanderers' command
Till they led covered wagons unto a new land
They tilled barren prairies, planted trees on the plains
And fought for survival in sod shanty claims.

Then the path for the cross-country railways were found.
And the jack-hammers sound could be heard to rebound
The spirit of those country's builders lives on
In wonder, and courage, in deeds and in song.

Chorus

The strength of our country is not what it seems
It's the generous hearts, the hopes and the dreams
Of the simplest among us as in years gone before
Our neighbors of all colors, the poorest of poor.

It's the leaders that walk with us, hand in hand,
To share with us truths that we understand
If hope can be ours, then shall it be.
We shall survive as our spirits are free.

Chorus

The first 200 years contained many a brawl
The future for everyone issues a call
In order that each one, peace can sustain
If we can learn to be much more humane.

Let us go forward, full steam ahead,
But not without pausing to take
careful stead
In meeting together to form a good plan
So all men are important; surely we can.

Chorus

Written at Glendive Town Meeting
Montana, May 17, 1975

TIE YOUR DREAM

Tune: Tie a Yellow Ribbon

Chorus:

Tie your dream of nation
 To the yet to be
 Fellowship of peoples where all
 folks are free
 Pride and Peace and Justice
 Happiness and Dignity
 To overcome our fear and shame
 To keep our country free.
 (repeat last two lines at end
 of song)

Back in our past we surely see
 Raising up of this great land
 Marching toward Democracy
 Of all we wanted to be
 Marching toward Democracy
 Of all we wanted to be.

There in our dreams we surely see
 The world we're all aiming for
 A world of enough to eat
 A world where all are free
 A world of enough to eat
 A world where all are free.

Written at Othello Town Meeting,
Washington, May 17, 1975

THE FUTURE WE DREAM

Tune: Nobody Knows the Trouble I've Seen

Chorus:

Everyone knows the future we dream
 A future where men are brothers
 A new life of struggle and joy that means
 We can live together.

Blazing a trail to the moon from earth
 Has been done,
 Bringing to man a new rebirth
 yet to come.

A life fulfilled is ours to hold
 Everyday
 Our true vocation will unfold
 On the way.

Written at East Orange Town Meeting,
New Jersey, May 17, 1975

VOYAGE TO GREATNESS

Tune: Tie a Yellow Ribbon

When you feel the need for all to stand up tall
 Brotherhood of man-
 Is what we need for all-
 So show a little courage and you just might see
 Speak to one and all
 Let them heed the call
 We are anxious to be free
 Let's build a better future world for you and me!

Written at Vineland Town Meeting,
New Jersey, May 31, 1975

BROTHERHOOD

Tune: I'd Like to Teach the World to Sing

From many lands our fathers came,
 Across a stormy sea,
 To flee away from tyranny
 And seek for liberty,
 From England's shore and Germany,
 From Africa and Greece,
 Each land to share its vision true.
 And build a world of peace.

Chorus:

It's for brotherhood
 Not for just you and me,
 Let us all be free;
 It's for brotherhood.

We'd like to build a world for all
 Where war and strife will cease.
 We'd like to see all free at last,
 And share our dream of peace.
 We're going to be a great new sign
 For all the world to see
 Of brotherhood and freedom's way,
 And world wide harmony.

Written at Painesville Town Meeting,
Ohio, May 31, 1975

THE SPIRIT OF THE UNITED WAY

Tune: When Johnny Comes Marching Home

The spirit of man must shine again, or else the light
 Will never have the chance again to do what's right
 Mistakes were made, the times were bad,
 But now we must push on ahead
 Or destroy ourselves in the ultimate blow-out.

The spirit of man is on the rise in the universe
 There is marching on our nations' lands
 Arise, arise,
 We'll all turn out, We'll all be there
 We'll show our country we really care,
 When the spirit of man is on the rise for all.

Our ghetto scenes are war machines, were wrong we know
 And if we turn our backs on them
 They'll grow and grow
 So listen Brothers, one and all,
 We must unite or else we'll fall.
 The spirit of man is on the rise again.

Written at State Farm Town Meeting,
 Powhatan and James River Correctional Centers,
 State Farm, Virginia, May 31, 1975

THE SPIRIT OF 1976

Tune: '76 Trombones

Our Fathers who with courage and open minds
 Built this world anew from the wilds
 Working together with a strength and harmony
 To create a home for you and me.

Two hundred years we'll meet as we face the old
 With open hearts, open eyes, and open minds.
 To march with all who have lead in this long hard way
 We must forge the new out of the old.

The future will be better than its ever been,
 Only if, we will be, united once again.
 The hope of every citizen is open eyes and loving hearts
 To be a people loving everyone.

Written at Westport Town Meeting,
 Kansas City, Missouri, May 31, 1975

UNITED WE STAND

Tune: Beautiful Dreamer

11

Our revolution is two centuries gone,
S'posed to give freedom, but still we fight on.
Our country's gone through many a trial,
So come with us then and we'll walk the mile.

Engaging in laughter, planning and work,
Bring all our families and build a new earth.
Work through the problems, build our dream's plan,
Sing of a nation remaking its land,
Sing of a nation, united we stand.

Washington, D.C., May 31, 1975

LINN COUNTY '76

Tune: 76 Trombones

In '76 we began an experiment
To become a people to be free.
To become a land of opportunity
Where every person is the key.

Where all are invested in the future,
Caring, caring as we never have before
In Linn County with all nature's bounty
We build tomorrow's community.

In '76 we began an experiment
To become a people to be free,
To become a land of opportunity
Where every person is the key.

THE FAIRFAX CITY SONG

Tune: When Johnny Comes Marching Home

When Fairfax City came to be, Hoorah, Hoorah!
With heritage and history, Hoorah, Hoorah!
Our fathers wrote about freedom and right,
Fought tyranny with all their might,
And they laid the ground for our democracy.

When Fairfax City comes into its own, Hoorah, Hoorah!
We'll all unite and work along, Hoorah, Hoorah!
We'll have a new community
With courage, hope and integrity,
And we'll all be there while standing in history!

There's still more work that must be done, Hoorah, Hoorah!
There's plenty of work for everyone, Hoorah, Hoorah!
The children will study, the youth prepare
The citizens cooperate everywhere,
And we'll all be glad in our new century!

YESTERDAY

Tune: Yesterday

There are railroad tracks, super ways and
 jumbo jets
 Less then, lots now,
 Let us move and grow today.

 Caring for all mankind.

 We stand up for good will.

H STREET COMMUNITY SONG

Tune: Joy to the World

 When H Street in its prime
 Produced the commercial thrust
 Before the 68 bust
 Saturday on H Street was a must
 The Street was really clean
 The Street was really clean
 Really clean and beautiful in Old D.C.

We are out to get a new H Street

 Clean up his place

 Be clean and beautiful for New D.C.

BROOKLAND COMMUNITY SONG

Tune: A Grand Ole Flag

It's a brand new world
 A beautiful world
 A world we must work to create
 It takes brain and brawn
 To make it dawn
 But we have the strength that it takes
 Chorus:

There are spacious skies
 Filled with future signs
 And Brookland life is good
 On Bunker Hill we'll take our stand
 And defend our neighborhood!

It's a grand new city
 Of brotherly love
 With jobs and homes for everyone
 Our community is a better place
 For all of the work that we've done.

It's a brand new world
 With our banner unfurled
 Giving hope to a future of peace
 Where the people share
 And show they care
 Defending our right without cease

Final Chorus:

Justice is our guide
 Where all hatred has died
 And respect is given to all
 So as one we live
 And love we give
 And our Brookland will never fall.

EVERY MAN CAN BE A DREAMER

Tune: Battle Hymn of the Republic

Our eyes have seen the glory of the Great Empire State.
 She's the product of the Dutch who came because they couldn't wait
 To find a shorter passage that would open up the gate
 To make their dreams come true.

Chorus:

Every man can be a dreamer,
 Every man can be a dreamer,
 Every man can be a dreamer,
 And make his dream come true.

The brotherhood of men I see as starting to begin;
 They're fighting for their country and beliefs in liberty.
 Now, they're forming a new justice which will never seem to end,
 How's that for brotherhood?

The future beckons one and all to build community
 No matter of their origin, belief, infirmity,
 We face our world and dare to seize the opportunity
 To make our dreams come true.

We celebrate our vision as we strive to make men free,
 And pledge to work together so man may live exultantly
 And put aside his guilt and fear for all eternity
 To build our land anew.

Written at Albany Town Meeting,
 New York, June 14, 1975

A COUNTRY BOLD AND FREE

Tune: Those Were The Days

Chorus:

Come here my friends and see
 A country bold and free
 A country that does what it needs to do.
 A country that all men will look to as a sign,
 A country that's a symbol to our time.

People of this nation lived the past
 Pushed west and made a nation that would last.
 With unity we move into the future
 A future of love and peace for all.

People of the world let's live and let live
 We are all together in the fight.
 Courage friend for what lies ahead
 Strive on to win the fight-- Never give in!

 Boston, Mass., June 14, 1975

SPLENDID SPEARFISH

Tune: You are My Sunshine

For friendly people out in the Black Hills
The folks in Spearfish are the best.
They live in splendid historic mountains
It's the best place in the West

Known through the nation by folks of all faiths
The Passion Play lives o'er and o'er
In nature setting Christ's life revealing
Like you've never heard before.

When we go up on Look Out Mountain
We see the grassland and trout-filled creek
We smell the pines and wild plums blooming
And see the deer on Spearfish Peak.

When the pioneers of the Paha Sapa
were coming through this Indian land.
They bravely settled in search of gold,
and loved the fertile land.

They carved a railroad through the canyon;
and built a normal school here too,
And now this place is a cultural center
with a heritage so true.

We need each other to lead and follow
and build a future on the past.
To live together for tomorrow
with a future that will last.

Written by Spearfish Town Meeting
South Dakota, June 14, 1975

And our new future will arrive.

PEOPLE CAN'T YOU HEAR THE CRY

Tune: I've Been Working on the Railroad

Standing on majestic mountain
Fighting battles drear
Now the fighting is over
We'll move the future near
Now the fighting is over
We'll never be the same
Come, let us move together
And make a world for all.

Chorus:

People can't you hear
People can't you hear
People can't you hear the cry!
People can't you hear
People can't you hear
People can't you hear the cry!

We are working in the present
To create a bright new day
The time is now to draw together
And allow all men to say
We will be the ones to conquer,
The future that leads us on
The cry for brotherhood and caring,
Our destiny our song.

We are living for the future
Caring for all men.
We are ever moving forward
Knowing where we've been
Can't you hear the future calling,
Stand up and take your place
Can't you hear the masses calling
Come and join the race.

Final Chorus:

Life is ours to live
The present is now
The future belongs to all.

California, June 14, 1975

THE FUTURE CALLS

Tune: Bound to the Promised Land

When our fathers met to create a land
 And they saw it full of worth
 They committed lives and fortunes too
 For a new image of the earth.

And now the burden is ours to share
 Commitment calls us to be
 We will build, we will strive, and sacrifice
 To create the world we see.

The future calls for hope in action
 It calls for those who care
 Oh, won't you come and go with me?
 In the future we all share.

Written at Nashville Town Meeting
 Tennessee, June 14, 1975

WELCOME TOMORROW

Tune: Man On The Flying Trapeze (Verse only)

We came from a time of oppression and need
 And in a new country, we planted a seed
 Of freedom and justice as everyman's right
 We built on the strength of that dream.

We live in a time of technology's boom,
 We cope with the smog, and we walk on the moon,
 Brotherhood beckons as never before,
 We struggle with all that we've done.

We look to a new day of challenge and hope,
 The problems concerned us because of their scope,
 We know we can do it, we've done it before,
 The future's a wide-open door.

Written at Coolidge Town Meeting,
 Arizona, June 21, 1975

HAPPINESS

Tune: Happy Days are Here Again

We met today to compose a song,
 About our country, and our land.
 We love our freedom and our peace.
 Happiness is here to stay.

Our freedom now is all explained.
 We accept it at its worth and gain.
 But some one else shed sweat and blood,
 Happiness is here to stay.

Our future is secure we know,
 For God, our God has ordained it so.
 We love to think and think we know,
 Happiness is here to stay.

IT'S GREAT TO BE ALIVE

Tune: Four Strong Winds

It is great to be alive
 In this land we have been given
 Pioneers who did build on the soil.
 Many nations gave their people
 Who together faced the challenge
 And together built this country with their toil.

Our community is strong
 When we all work together
 To decide what we need and our role.
 And our vision for tomorrow
 As we face a complex time
 In a world where humanity is whole.

LET'S GET TOGETHER

Tune: Oh Dear What Can the Matter Be?

Flowers grow in this atmosphere
 Reaching up through the clear blue air
 Man and woman and children too
 All our tomorrows are here.

Come together, let's live in peace and love
 Come together, let's live in peace and love
 We'll join hands and shout to the skies above,
 All of the people are one.

People let's get together now
 People let's get together now
 We could do great things united
 Whatever race, colour, creed.

Tear down walls of hatred and prejudice,
 Tear down walls of hatred and prejudice,
 Brothers, sisters, let's build a family
 Celebrate humanity.

Will you come to the future world?
 Will you come to the future world?
 Welcome join in our family
 And give potential to all.

ODE TO SACKVILLE

Tune: Beethoven's 9th

There is a new community
 That's growing day by day
 Where people come to build their homes
 And live and work and play.
 We'll fight together for our rights
 And keep our high ideals in view
 Be proud of your community
 For it reflects on you.

Sackville is our name today
 Though names don't mean too much
 It's those within that make the place
 With togetherness and such
 We're growing fast statistics show
 What common men and work can do
 Not just building row on row
 But helping neighbors too.

THE NEW SONG

Tune: Oh, Susanna

We come from many nations
And we've made this land our home,
We've laughed and cried and lived and died
The whole world we did roam.

Chorus:

Now our passion
The future beckons all.
America our country
We're answering the call.

Oh we've stood on recognition
Seen our structures daily fall
We are local man with tool in hand
Building future - world for all.

With open doors in front of us
The gifts of earth all there
New pioneers we join our hands
The frontier's global care.
