COMMUNITY SONG

JONES VILLAGE

tune: Reunited

There was a man named Earnest Jones.  
He sold us land and left us alone.  
We were share croppers raising cotton and corn,  
We realize we loved it cause we built our homes.  
Hey! Hey

We spent the evening working round the home  
Regret the years that we farmed alone.  
Young people left us cause there were no jobs  
We realize we need them cause we're so alone  
Hey Hey

Jones village we feel so good  
Jones Village we have brotherhood  
A break up right now will make us lonesome and sad  
We realize we love you cause we need you bad  
Hey Hey

#### CHALLENGE STATEMENT

In the arena of Recreation the fact that there is no land provided, no body has worked on it, and there is a question of money indicates that the underlying contradiction is to get people together to talk and plan on how to work for a recreation area.

In the arena of Senior Citizens the fact that there is not enough interest indicates that the underlying contradiction is developing leadership to speak out for Senior Citizens.

In the arena of keeping up property the fact that there is a lack of financial ability, lack of community pride, and some people have not been taught pride indicates that the underlying contradiction is getting people talking and doing things together.
