

BEL-AIR TOWN MEETING

OCTOBER 24, 1978

STORY

©

PAST

We developed from a wooded area and a brick yard into a beautiful sub-division.

PRESENT

We are improving on ~~me~~ our existing beautiful homes, looking at park development and community recreation for a better atmosphere.

FUTURE

Through togetherness and awareness we will develop the community through collective ideas.

SONG

GET TOGETHER

Tune: The More We Get Together

We need to get together, together, together,
We need to get together to strengthen Bel Air.

We need to get together, together, together,
We need to get together to show that we care.

For your needs are my needs,
And my needs are your needs,

So let us come together,
Our ideas to share.

LACK OF TOGETHERNESS

In the area of creating community consciousness the following conditions exist:

lack of awareness and organization.

This indicates that the underlying contradiction is lack of togetherness.

This contradiction is illustrated by roaming animals, inadequate drainage, and thoughtless speeding.

NOBODY CARE

In the area of community involvement, the following conditions exist:

lack of community organization

lack of community interest and awareness

lack of interest in things other than occupational activities.

This indicates that the underlying contradiction is

unawareness of the significance of good community organization.

This contradiction is illustrated by absenteeism for the Town Meeting.

COMMUNITY PROJECTS

We the citizens of the Bel Air Community in order to bring the community together propose sponsoring a community mixer through forming a committee to plan and execute this proposed project.

We the citizens of Bel Air in order to unify the community propose the formation of a community to recruit leadership for the betterment of the community through

- 1) scheduled meetings
- 2) one-to-one contacts
- 3) home entertainment
