

MARSHALLS HUMAN DEVELOPMENT PROJECT

A PROCLAMATION OF COMMUNITY CONSENSUS

The Committee of 100 Citizens

We, the undersigned citizens of the Marshall Islands, hereby affirm our decision to act together for the overall betterment of our islands and people. We commit ourselves to work through the Comprehensive Human Development Plan in coordination with other development institutions and activities. Our vision includes both the social betterment and the economic advancement of all the islands.

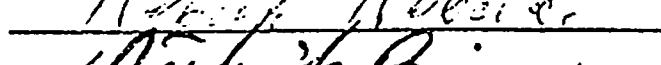

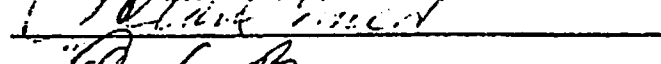

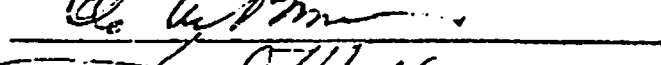

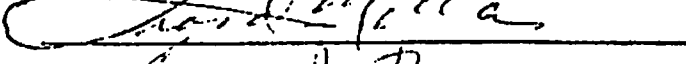

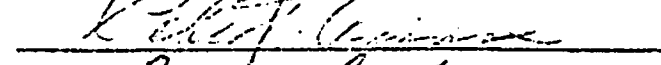

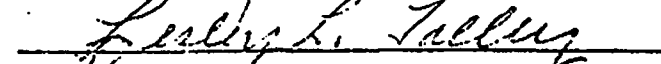

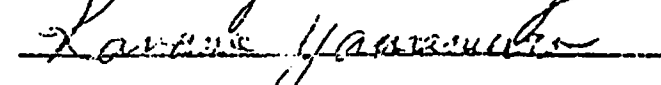

Representing each urban center, every island and atoll of the Marshalls, we will actively support the Plan through our combined labor.

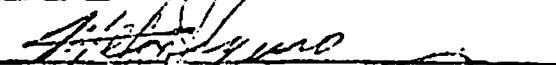

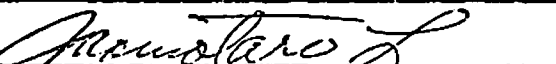

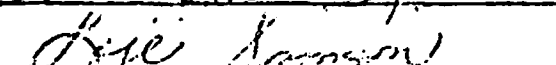

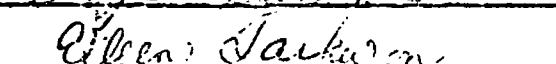

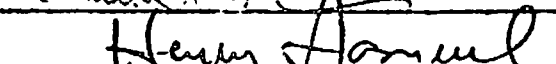

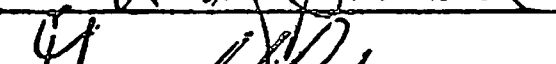

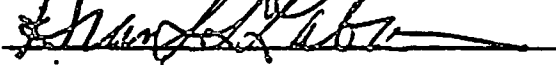

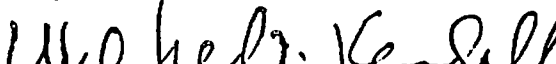

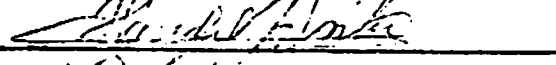

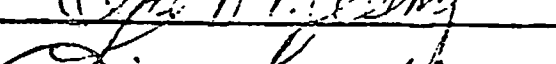

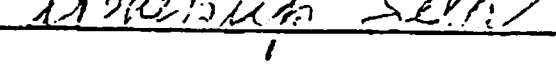

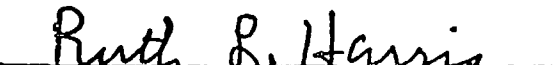

We will work to foster cooperation and coordination between the private and governmental sectors for social and economic development.

We will work to tie together the service efforts of the Territorial, District, Nitijela and Municipal Offices and the agencies of the United Nations.

We will work to create the common mind of the whole community toward making real the vision of the new society.

Finally, we promise together that these renewed islands shall be a sign and service for all people of the Trust Territory and the world.
