- Cash-crop Garden--started
- Construction Company--initiated
- Patio Pavers Industry--market research initiated
- Worm Farm--expanded

5. What local follow-up is planned?

(see attached sheet)

6. What nexus follow-up would be helpful?

- 1. mosquito control info
- 2. Residents to TM circuits (talk to area & Booher)
- 3. Residents to upcoming consults
- 4. Get "500" gal. paint for house painting
- 5. Housing PSU (June) on renovation & new (loans)
- 6. Weekly phone call to aux. check on: "sign" for entry way break-even analysis health caretakers--Gilberts
- 7. Mass Clean-up Work Day with extra troops

7. Where was the trek construct most effective? Least effective?

Most Effective

- community brainstorm of possibilities
- evening debriefing sessions
- beginning with a work day
- spending 11 days and seeing surrounding area first

Least Effective

- project program debriefing
- too many industry possibilities by mid-week, needed harder push on dropping out "wish-dreams"

8. Where was the trek set-up most effective? Least effective?

Most Effective

- other trek members participation
- setting up date for trek

Least Effective

- having auxiliary see cruciality of all being present and opening and ending planning
- pre-prep on one industry to bring with team way to raise to auxiliary consciousness the gifts and holes relative to project completion in a corporate context rather than just informal conversation with individuals

PROJECT SITUATION:

1. What are the current operating blocks?
 - massive number of forces to implement major miracle clean up of entire area
 - need harder push on short range immediate signals while continuing work on comprehensive long range plan implementation
 - the strategic and effective use of clout
 - inactive health caretaker system
 - need local Guardians visiting Pace on regular basis
2. What are the present advantages?
 - community broad involvement with a strong leadership core
 - Lawrence Murphy (white) working with Catrell Hall(black) on community garden
 - VOICE on regular basis to entire community and local supporters
 - local and state clout established
 - funding available for market analysis
 - high interest in economic by community
 - Visual long range comprehensive plan for community environment
3. What is currently breaking loose?
 - Guilds forming around new economic ventures
 - Community restaurant/bakery
 - In Kind possibilities in broader geographic area
 - Youth Service Corps
 - Series of 12 work days
 - laundromat expansion
 - Community Garden
4. What is the state of local participation?
 - community meetings well attended
 - strong leadership core
 - stake dynamic strong (in black stakes)
 - white participation emerging on individual basis
5. What is the state of local leadership?
 - leadership core ready to take on direct responsibility for programs
 - leadership core is all black
 - need to attend US consults and possible auxiliary potentials
 - leadership is self-conscious of methods and meeting dynamics--need to lead more meetings directly
6. What resources are needed by the project?
 - financial analysis assistance
 - people from other projects experienced in housing renovation and housing grants for new housing (federal funding) especially from 5th City.

7. What visible signs are now present?

- street signs
- preschool
- community park
- community garden
- Religious House
- restaurant
- foot bridge
- Welcome Sign
- trash barrels

APPENDIX - Attach copies of the following:

1. Actual trek construct used
2. Models created
3. Special analyses
4. Methodological insights
5. Photos of projects started
6. Product samples
