

**THE ECUMENICAL INSTITUTE**, a division of the Church Federation of Greater Chicago, was born out of a resolution of the Second Assembly of the World Council of Churches in 1964. The Institute is a research and training center located in Chicago's West Side Negro ghetto. Its training focuses on experimental and imaginal forms of education relating to 20th Century civilization. Its thrust is toward renewal of the Church to take its rightful place in the renewal of society. Its research presses into creation new images and forms of the local congregation in its catalytic task of revolutionizing civilization; and new models of community reformulation whereby lives and societies are genuinely released to vocation and given images, constructs and means of participation that shape the destiny of their locale in the midst of and on behalf of the total civilizing enterprise.

**SUMMER '67** is available for single individuals and families. Individuals will be housed dormitory style, couples in single rooms. Children will be housed in small dorm rooms. The cost for room and board, tuition, and materials is \$90 for an individual and \$50 for each additional family member. A \$10 pre-registration fee is requested. Children, infant through high school, will be involved in structured imaginal education programs that will give them the tools to participate in a 20th Century missional family.

## **in an inner-city project**

The 5th City Project covers a 16 square block area of Chicago's West Side ghetto immediately surrounding the E.I. campus. The intensive reformulation project involves 100% of the population. The comprehensive reformulation model covers all aspects of life in the ghetto. It is keyed to the understanding that it is the ghetto resident's image of himself and his world that is the problem. Working with the model and the area is a unique opportunity in community reformulation.

## **in the corporate life style**

Appropriating the task of forging the future requires a new style of living. The urban revolution also demands radically new patterns in corporate relationships. Course participants will live in a covenanting community in which they will experience models of accountability toward the mission and the vast wisdom of the corporate mind.

A NEW BREED of humanness has emerged, which is pushing past bourgeois patterns, respectable livelihood, and approved education. Faced with the depth question—*What am I to do with my 70 years of energy?* — it is tempting to be seduced into floating it away or expending it in all directions. Summer '67 is an exciting alternative for those daringly intentional ones who wish to put their lives into a thrust which will further global humanness.

## in a new symbolic life

The 20th Century man needs totally new ways of celebrating who he understands himself to be and how he relates to the totality of reality. Experimental forms of worship are used and the regular 5th City Festivals will be part of the summer project. This is first hand experience in an emerging symbolic life.

## in imaginal education

The man who would shape the future must be a pedagogue. All participants are trained in revolutionary pedagogical methodologies which enable the teacher to re-structure the self-images of the taught.
