

PRIMAL COMMUNITY EXPERIMENT

GLOBAL RESEARCH ASSEMBLY

MELBOURNE 1975

Area Sydney - Primal Community Experiment - S '75
21 Point Plan

Creating Sign Explosion	Festivals and Celebrations
	Highlight Local Gifts
	Dramatic Social Art
	Explode Multi-Cultural Gift
	City Structure Sign
	Creation Community Story
	Impact with L.C.C.
Strategy for Replication	Two PCE per Person
	Galaxy Replication
Focusing Local Resources	Guardian Net Set-up
	Government Authorisation Net
	Local Leadership Frame
	National and Local Development
Building Common Direction	Area PCE Interchange
	Emphasis Local Research
	Continental Interchange
	Area PCE Manual
Strengthen Guild Leadership	Area SMS Each 26 Weeks
	LENS: One per PCE Each Year
	Systematic Field Visit and Consultation
	Intensification Guild Leadership

Area Sydney		Primal Community Experiment		
Tactical System				
Deepening the Guild	Build Training Procedure	Task Force Interchange	Catalyzing Structure Network	Pre-Acceleration Design
Formal Training Courses	Internal and External Training Manuals	Local/Area/Contnt. Guildsman Exchange	Develop Guardian Dynamic	Area Coordinating Calendar
Consult Collegium	Odysseys	Data Interchange	Area Authorization Framing	Research Prioritize Consensus
Symbolic Celebration	Story and Symbolic Creation		Determining Government Enablement	Area/Metro Parish
Research P.S.U.	Special Training Events	Rational Assignment of Voluntary Forces	Development	Forces Mobilization Model

I. QUARTERLY PCE IMPACT

We recommend:

- (1) The creation of special Task Forces of 10-15 people, drawing from across the Area.
- (2) The deployment of the Task Forces to PCE's on a Quarterly basis over the next six quarters.
- (3) The suggested rhythm:

III	IV	I	II	III	IV
Parap	South Sydney	E. Enfield Kurilpa	Prahran	Canberra	E.Vic- toria P.

This recommendation developed from the need in each PCE for additional forces to enable either initiation or acceleration of the experiment's present state. This plan would also create an additional formulation and training opportunity for movement colleagues and guildsmen from each region. The anticipated result would be the creation of a momentum of movemental activity necessary for the intensification of each PCE in particular and in a broader sense the Region.

We recommend that this miracle be assigned to South Sydney of the Area and begin in Quarter III with the Parap PCE.

II. THE PCE STORY

We recommend:

- (1) That a concise and imaginative account of the role and focus of the PCE in Area Sydney be written.
- (2) That a special Task Force be assigned within the context of the Area Council to complete this task.
- (3) The creation of forms which enable the use of the story.

The creation and articulating of this story would be essential for:

- (a) Sustaining and enabling existing guildsmen.
- (b) Recruitment of new forces.
- (c) Fostering the creation of a Guild symbol system.
- (d) Enabling a common thrust across the Area.
- (e) Clearly establishing the vision out of which the Experiment is born.

II. (Cont.)

- (f.) supplying images and content for proposal writing and other development and promotional material.

We recommend this miracle be assigned to Development for further research and production.

III. KEY CONGREGATION INTER-CHANGE

We recommend an interchange of congregations presently and prospectively involved in Primal Community Experiment.

- (a) Break open parsons' mind-set.
- (b) Facilitate recruitment of guildsmen by presence and witness exchanges.
- (c) Fill out Galaxy and catalyse their participation in the Primal Community Experiment, and
- (d) Enable clergy consultation and cultivation to implement authorization from the historic church.

Implementation involves selecting congregations, creating a model for the pattern of the exchange schedule and timeline and curriculum of visit, compiling a comprehensive hosting check list for participating PCE, budgeting for costs involved, compiling weekend miracle list, recommend the weekend schedule of the exchange

SYDNEY-BRISBANE
ADELAIDE-MELBOURNE
PERTH-ADELAIDE
MELBOURNE-SYDNEY
BRISBANE-DARWIN
DARWIN-PERTH

and staging of celebrations for sending and receiving exchanges.

We recommend that this miracle be assigned to Kurilpa PCE on behalf of the Area to coordinate this and begin in Quarter I.

IV. SOCIAL METHODS SCHOOL

We recommend SMS participation by 10 guildsmen from each Primal Community Experiment to enable them to receive training in PCE methods and for the training of personnel to lead Social Community Consultations. To enable this would involve a recruiting model, listing of the top 10 prospects in each region, faculty rationale, course site location, budget, brochures and assignment model using warboards as the model to hold the intentions of this miracle against time.

IV. (cont.)

We recommend that this miracle be assigned to Prahran on behalf of the Area and that the School be held in Quarter I, 1975.

V. METRO HUMAN RESURGENCE MISSION

We recommend that there be an Area wide Human Resurgence Mission with a focus on 6 key metros, providing the impact opportunities to create signal event by use of a common, specific curriculum.

To be accomplished by:

Concentrated preaching engagements and speaking to organised gatherings in each metro, using metro forces. Proposed date 1-15th September, 1975.

We recommend that this miracle be assigned to East Enfield on behalf of the Area and that the Mission focus on Weeks 11 and 13 Quarter II, '75.

VI. SEAPAC ODYSSEY

We recommend a SEAPAC Odyssey as an intentional tool by which people of the Area are exposed to both the movemental and multi-cultural vision for all local communities.

Itinerary - from 10 to 34 days - includes Singapore, KL, Hong Kong, Djakarta, Manila.

Requires: - (a) Project phasing (Timing for publicity, training leaders, manual).

- (b) Brochure
- (c) Recruiting
- (d) Administrator-Coordinator.
- (e) Pre-contexting for journey.
- (f) Resource material from Global Centrum.

We suggest that this miracle be assigned to East Victoria Park on behalf of Area to coordinate and arrange and that it be held in Weeks 1-4 Quarter II, 1975.

VII. 36 LCC's

We recommend that there be 36 LCC's as an Area community

VII. (cont.)

Consultative service - initial with the Seven City Proposal. Date Jan., 1976 to link with the 75th Anniversary year of Federation, to achieve Government Authorisation.

Requires: - (a) Project phasing (timing for publicity, training leaders, manual).
(b) Operations centre and staff preparation.
(c) Coordination of structure.

We recommend that this miracle be assigned to Canberra on behalf of the Area and that it be held in Weeks 4-5, Quarter III, '75.

VIII. ABORIGINAL WUNAN JOURNEY

We recommend systematic visits by Mowanjum and Oombulgurri guildsmen to Aboriginal communities of other PCE's.

The trek will share Aboriginal heritage, resurrect Wunan Channels and link tribal with urban Aborigines.

The Aboriginal Heritage Course will be taught within the PCE context.

We recommend that this miracle be assigned to the Oombulgurri Signal Demonstration Community on behalf of the Area and that it be held during Quarter III, 1976.

Area Sydney	PRIMAL COMMUNITY EXPERIMENT					Melbourne
	Time Line 3 Twenty-Six Week Periods					January 1975
