CHICAGO

WEEK FIVE

GLOBAL DEVELOPMENT CENTRUM

Extraordinary maneuvers are planned for five extraordinary Development troops to close April with \$140,000 victory in one week. One week of planning for Ivy City enables assured market victory of one million dollars. The push on public image is seen as a gift in articulating the network of friends built over the last 25 years. The key contradiction lies in the arena of articulating the turn of Development toward new methods of utilizing available resources and networks for clout and support.

GLOBAL RESEARCH CENTRUM

Global Research Centrum reports in-the-field research as the Hong Kong Nexus participates in 105 GCFs on Mactan Island, and a methods training module refinement is given its fourth run in Bontoa. Reports on the power of the global film as an impact and authorization tool comes in as copies return from Africa and from across North America. Images for the GRA in Chicago in July begin to emerge. A proposal is written for an assembly drawing together the learnings from two decades of experiments in human development by a broad range of agencies including the ICA. GLOBAL MANAGEMENT CENTRUM

Global Management Centrum reports on a week of dispersion and focused thrusts. Fiscal Services in Chicago sends out two people to Majuro, one to Australia and one to Canada to work with EDGE and audits. Facilities are a focus with a continuing search for a Hong Kong Nexus facility and the launch of a quarter-long environmental campaign in the Chicago Nexus in preparation for the GRA. One 56-hour printing blitz produces copies of ten different Human Development module manuals for HUD and the Projects. The trend emerging is that the management dynamic is more and more on-the-road as management emerges as a focus in the global Movement. The key contradiction lies in the arena of discerning the needed focus and remaining flexible in maneuvering with troops and funds tight on all fronts.
