

HOPE BEYOND HOPE
Gene Marshall

HOPE appears when Faith and Love have already been made conscious.
Without consciousness of profound consciousness no social demonstration is possible.

Faith comes -- life happens to you and suddenly find that you just BELIEVE.

then Care grips you, hate caring for it's a heavy load, not a welcome thing.

Trust comes and you trust your belief beyond your anger.

Power suddenly find that you can relate all that is coming at you --
say have mercy on me, I can't go on, then answer comes: o.k. here's mercy
go on.

Peace bubbles up in midst of terror, no problems.

Certainty that life will go on and I know life will enable me to believe & trust.

THEN HOPE APPEARS in the gap between faith & love:

Faith struggle vs. alien image, which inverts your posture & changes mind.

Love struggle w. strange fire of seeing care, falling in love and focusing your
passion.

Hope struggle with Nothingness, a wipe out, becoming a zero.

When hope is nothing, nothing, nothing, then it is everything.

There is the hope that does not disappoint.

He who lives in temporal hopes, lives in anxieties.

Hope against hope means unconditional rendering up.

Temporal Hopes

1. That relationships be solid
but no relationships are solid
2. That dreams come true; dream of
JVS but will still look and see
corruption
3. Sense of well being for the now

Profound Hopes

1. The Chosen One - no solid because
only solid relatsp I have is
relationship to mystery which
terrifies all my solid relationships
2. Presence of Being - when you are
with it, it will be with you!
3. Joy of life - when given up all
anxieties, then a gratitude comes
an immediate appreciation of
profound consciousness.

WELL BEING -all life is well and
you too are well (only if
you focus not on your own
well-being but the well-being of all.

CHOSEN ONE

relationship to mystery is all
I have & is secure.

PRESENCE OF BEING

when deed participates in being
forever; tactics along the course of history.
